PROSPECTUS SUPPLEMENT SUMMARY

This prospectus supplement summary does not contain all of the information that you should consider before investing in our securities. You should read this entire prospectus supplement and the accompanying prospectus carefully, including the financial statements and other information incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision. In addition, please read the “Risk Factors” section of this prospectus supplement beginning on page S-5 and the risk factors contained in our Annual Report and other documents incorporated by reference herein. Some of the statements in this prospectus supplement and the accompanying prospectus and the information incorporated by reference constitute forward-looking statements. For additional information, refer to the section entitled “Cautionary Note Regarding Forward-Looking Statements.”

Unless the context requires otherwise, the words “we,” “us,” “our,” the “Company,” “Super League,” and “Super League Enterprise” refer to Super League Enterprise, Inc., a Delaware corporation, and its wholly owned subsidiaries, Mobcrush Streaming, Inc., a Delaware corporation, and Super League Gaming, UK Ltd., a company organized under the laws of England and Wales.

Company Overview

We are redefining how brands connect with consumers through the power of playable media. Through solutions within mobile games and the world’s largest immersive gaming platforms, Super League provides global brands with ads, content, and experiences that are not only seen – they are played, felt, and remembered. Boasting an award-winning development studio, a vast network of native creators, and proprietary engagement technology, Super League is a one-of-a-kind partner for brands looking to stand out in culture, spark loyalty, and drive meaningful impact. In a world where attention is earned, Super League makes brands relevant - by making them playable.

We generate revenue from (i) innovative advertising including immersive game world and experience publishing and in-game media products, (ii) direct to consumer offers, including in-game items, e-commerce, and virtual collectibles, and (iii) content and technology through the production and distribution of our own, advertiser and third-party interactive and video content. We operate in one reportable segment to reflect the way management and our chief operating decision maker review and assess the performance of the business.

Our Strategy

We believe that video gaming and virtual world platforms are where consumers will continue to spend material amounts of time, making it increasingly important for global brands and intellectual property owners to prioritize in-game and in-world marketing and advertising programs. In an attention economy dominated by the continued blending of physical-and-digital lives and smarter, more immersive screens, consumers are increasingly responsive to more customized and personalized advertising content that fits naturally with the activities they most enjoy. For brands, the next generation of consumer engagement will be achieved through targeted solutions that meet this consumer expectation.

With strong roots in open gaming platforms where interactive worlds were first spawned, we believe our success is in the creation, growth, and monetization of playable digital advertising content and interactive experiences across mobile games and immersive platforms. Super League’s vision is to be the most comprehensive provider of products and creative, tech-driven solutions that deliver superior levels of consumer engagement and measurable business outcomes for brands within the playable media category.

Built on a powerful foundation of unmatched capabilities and software platforms that have driven consistent success for innovative brand experiences, creator growth and monetization, and significant consumer engagement, our scalable, vertically-integrated solution offers:

- Successful owned and third-party publishing worlds, experiences and destinations;
- Innovative product and marketing solutions for brands and developers; and
- Valued tools and analytics for brands and developers.

Our Business

As an early-mover creating engaging experiences inside of metaverse, or “open world,” game platforms since 2015, Super League has converted our deep understanding of young gamers into significant audience reach in virtual world gaming platforms. We believe we have successfully iterated our business model through these market insights, and our organic and inorganic growth to establish scale and ultimately drive our monetization strategies. Our strong and growing product-market fit currently reaches over 130 million monthly unique players in Roblox, Minecraft and Fortnite and generates over one billion monthly impressions. Our software supports the creation and operation of our owned and third-party metaverse gaming worlds and experiences, along with creator tools and analytics underpinned by a creator economy. These capabilities and tools enable Super League to build immersive experiences and custom worlds, as well as, extend audience reach with our innovative in-game ad and consumer products, allowing our content creator partners to participate in our advertising economy. Our analytics suite provides Super League, brands and advertisers, and game developers data that informs campaign measurement and insights, along with enhanced game design. Beyond our primary advertising revenue stream, we have the opportunity to extend further downstream in the metaverse gaming worlds we operate, and generate in-game direct to consumer revenues. In addition, our platform, and our capability to produce compelling gaming-centric video and livestream broadcasts drives viewership to our experiences and our brand partner’s digital channels for further amplification.

Specifically, Super League’s digital experience and media products provide a wide range of solutions for brands and advertisers. From branded in-game experiences, through to custom content and media, Super League can provide end-to-end solutions for brands to acquire customers, deepen brand affinity and deliver digital to physical conversion to drive meaningful brand business performance. As Super League has scaled in both metaverse player and viewing audience reach, we have experienced growth in both the average revenue size of branded programs, along with a strong percentage of repeat buyers, while upholding our premium cost per impressions (“CPM”) rates, further validating a new premium social marketing channel for advertisers to reach elusive Generation Z and Alpha gamers. Additionally, our capability and proprietary technology is now being applied to new virtual world platforms beyond our core offering with the vision of being an enterprise solution for brands to have a persistent, omni-channel across immersive world platforms driving back to a brand’s web experience that speaks this new language of 3D engagement. A move to more persistent branded programs shifts the Company’s business model from being one of temporal, campaign-centric, engagements to streams that are more annual, recurring, and forecastable in nature, smoothing out some of the current traditional advertising model seasonality.

RISK FACTORS

Investing in our securities involves a high degree of risk. Before deciding whether to purchase any of our securities, you should carefully consider the risks and uncertainties described below, in the section titled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2024 (the “2024 Annual Report”), our Quarterly Report on Form 10-Q for the quarter ended March 31, 2025, and in other documents that we subsequently file with the SEC that update, supersede or supplement such information, which are incorporated by reference into this prospectus supplement, and in any free writing prospectus that we have authorized for use in connection with this offering. If any of these risks actually occur, our business, financial condition and results of operations could be materially and adversely affected and we may not be able to achieve our goals, the value of our securities could decline and you could lose some or all of your investment. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks occur, the trading price of our Common Stock could decline materially and you could lose all or part of your investment.

Risks Related to Our Common Stock and this Offering

You may lose all of your investment.

Investing in our Common Stock and/or Pre-Funded Warrants involves a high degree of risk. As an investor, you might never recoup all, or even part of, your investment and you may never realize any return on your investment. You must be prepared to lose all your investment.

Management will have broad discretion as to the use of proceeds from this offering and may invest or spend the proceeds in ways with which you do not agree and in ways that may not increase the value of your investment.

Our management will have broad discretion over the use of proceeds from this Offering, including for any of the purposes described in the section of this prospectus supplement entitled “Use of Proceeds.” You may not agree with our decisions, and our use of the proceeds may not yield any return on your investment. Our failure to apply the net proceeds from this Offering effectively could compromise our ability to pursue our business strategy, and we might not be able to yield a significant return, if any, on our investment of these net proceeds. In addition, the net proceeds from this Offering may not be sufficient for our anticipated uses, and we may need additional resources to progress our service offerings to the stage we expect. You will not have the opportunity to influence our decisions on how to use our net proceeds from this Offering.

You will experience immediate and substantial dilution.

Because the price per share of our Common Stock and Pre-Funded Warrants being offered is substantially higher than the net tangible book value per share of our Common Stock, you will suffer substantial dilution in the net tangible book value of the Common Stock you purchase in this Offering. Based on the public offering price per share of Common Stock of \$[●] and \$[●] per Pre-Funded Warrant, and our net tangible book value as of March 31, 2025 of approximately \$(0.50) per share, if you purchase securities in this offering, you will suffer immediate and substantial dilution of approximately \$[●] per share, representing the difference between the public offering price per share of Common Stock or Pre-Funded Warrant and the net tangible book value per share of our Common Stock, after giving effect to the sale of shares of our Common Stock in this Offering. See the section titled “Dilution” below for a more detailed discussion of the dilution you will incur if you purchase Common Stock in this Offering.

We may issue additional equity or equity-linked securities in the future, which may result in additional dilution to you.

We expect that significant additional capital will be needed in the future to continue our planned operations. To the extent that we raise additional capital by issuing equity securities, including securities exercisable for or convertible into shares of our Common Stock, our existing shareholders’ ownership may experience substantial dilution, and the terms of these securities may include liquidation or other preferences that adversely affect your rights as a common stockholder.

There is no public market for the Pre-Funded Warrants being offered in this Offering.

There is no public trading market for the Pre-Funded Warrants being offered in this Offering, and we do not expect a market to develop. In addition, we do not intend to list the Pre-Funded Warrants on The Nasdaq Capital Market or any other national securities exchange or nationally recognized trading system. Without an active trading market, the liquidity of the Pre-Funded Warrants will be limited.

Holders of Pre-Funded Warrants will have no rights as common stockholders until such holders exercise their Pre-Funded Warrants and acquire our Common Stock.

Until holders of Pre-Funded Warrants acquire shares of our Common Stock upon exercise of the Pre-Funded Warrants, holders of Pre-Funded Warrants will have no rights with respect to the shares of our Common Stock issuable upon exercise of such Pre-Funded Warrants. Upon exercise of the Pre-Funded Warrants, the holders will be entitled to exercise the rights of a common stockholder only as to matters for which the record date occurs after the exercise date.

We will not receive any meaningful amount of additional funds upon the exercise of the Pre-Funded Warrants.

Each Pre-Funded Warrant will be exercisable until exercised in full and by means of payment of the nominal cash purchase price upon exercise. Accordingly, we will not receive any or any meaningful additional funds upon the exercise of the Pre-Funded Warrants.

Although our Common Stock is listed on the Nasdaq Capital Market, our shares are likely to be thinly traded for some time and an active market may never develop.

Although our Common Stock is listed on the Nasdaq Capital Market, it is likely that initially there will be a very limited trading market for our Common Stock, and we cannot ensure that a robust trading market will ever develop or be sustained. Our shares of Common Stock may be thinly traded, and the price, if traded, may not reflect our actual or perceived value. There can be no assurance that there will be an active market for our shares of Common Stock in the future. The market liquidity will be dependent on the perception of our operating business, competitive forces, state of the live stream and gaming industry, growth rate and becoming cash flow profitable on a sustainable basis, among other things. We may, in the future, take certain steps, including utilizing investor awareness campaigns, press releases, road shows, and conferences to increase awareness of our business and any steps that we might take to bring us to the awareness of investors may require we compensate financial public relations firms with cash and/or stock. There can be no assurance that there will be any awareness generated or the results of any efforts will result in any impact on our trading volume. Consequently, investors may not be able to liquidate their investment or liquidate it at a price that reflects the value of the business and trading may be at an inflated price relative to the performance of our company due to, among other things, availability of sellers of our shares. If a market should develop, the price may be highly volatile. Because there may be a low price for our shares of Common Stock, many brokerage firms or clearing firms may not be willing to effect transactions in the securities or accept our shares for deposit in an account. Even if an investor finds a broker willing to effect a transaction in the shares of our Common Stock, the combination of brokerage commissions, transfer fees, taxes, if any, and any other selling costs may exceed the selling price. Further, many lending institutions will not permit the use of low-priced shares of Common Stock as collateral for any loans.

Our stock price may be volatile, and you could lose all or part of your investment.

The trading price of our Common Stock may fluctuate substantially and may be higher or lower than the initial public offering price. This may be especially true for companies with a small public float. The trading price of our Common Stock will depend on several factors, including those described in this “Risk Factors” section, many of which are beyond our control and may not be related to our operating performance. These fluctuations could cause you to lose all or part of your investment in our Common Stock or Pre-Funded Warrants since you might be unable to sell your shares at or above the price you paid. Factors that could cause fluctuations in the trading price of our Common Stock include:

- changes to our industry, including demand and regulations;
- we may not be able to compete successfully against current and future competitors;
- competitive pricing pressures;
- our ability to obtain working capital financing as required;
- additions or departures of key personnel;
- sales of our common stock;
- our ability to execute our business plan;
- operating results that fall below expectations;
- loss of any strategic relationship, sponsor or licensor;
- any major change in our management;
- changes in accounting standards, procedures, guidelines, interpretations or principals; and
- economic, geo-political and other external factors.

In addition, the stock market in general, and the market for technology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. Broad market and industry factors, as well as general economic, political and market conditions such as recessions or interest rate changes, may seriously affect the market price of our common stock, regardless of our actual operating performance. These fluctuations may be even more pronounced in the trading market for our stock shortly. If the market price of our Common Stock after our offering does not exceed what you paid per share, you may not realize any return on your investment in us and may lose some or all of your investment.

In addition, in the past, following periods of volatility in the overall market and the market prices of particular companies’ securities, securities class action litigations have often been instituted against these companies. Litigation of this type, if instituted against us, could result in substantial costs and a diversion of our management’s attention and resources. Any adverse determination in any such litigation or any amounts paid to settle any such actual or threatened litigation could require that we make significant payments.

If securities industry analysts do not publish research reports on us, or publish unfavorable reports on us, then the market price and market trading volume of our Common Stock could be negatively affected.

Any trading market for our Common Stock will be influenced in part by any research reports that securities industry analysts publish about us. We may not obtain any future research coverage by securities industry analysts. In the event we are covered by research analysts, and one or more of such analysts downgrade our securities, or otherwise reports on us unfavorably, or discontinues coverage of us, the market price and market trading volume of our Common Stock could be negatively affected.

We have not paid cash dividends in the past and do not expect to pay cash dividends on our Common Stock in the future. Any return on investment will likely be limited to the value of our Common Stock.

We have never paid cash dividends on our Common Stock and do not anticipate doing so in the foreseeable future. The payment of dividends on our Common Stock will depend on earnings, financial condition and other business and economic factors affecting us at such time as our Board may consider relevant. If we do not pay dividends, our Common Stock may be less valuable because a return on your investment will only occur if our stock price appreciates.

Since we do not anticipate paying any cash dividends on our capital stock in the foreseeable future, stock price appreciation, if any, will be your sole source of gain.

We currently intend to retain all of our future earnings, if any, to finance the growth and development of our business. In addition, the terms of any future debt agreements may preclude us from paying dividends. As a result, appreciation, if any, in the market price of our Common Stock will be your sole source of gain for the foreseeable future.

Our issuance of additional shares of preferred stock could adversely affect the market value of our Common Stock, dilute the voting power of common stockholders and delay or prevent a change of control.

Our Board has the authority to cause us to issue, without any further vote or action by the stockholders, up to an additional 9,958,018 shares of preferred stock in one or more series, to designate the number of shares constituting any series, and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, voting rights, rights and terms of redemption, redemption price or prices and liquidation preferences of such series. As of the date of this prospectus, we had the following shares of Preferred Stock outstanding: (i) 3,639 shares of Series AA Convertible Preferred Stock, par value \$0.001 per share (the "Series AA Preferred"); (ii) zero shares of Series AA-2 Convertible Preferred Stock, par value \$0.001 per share (the "Series AA-2 Preferred"); (iii) 25 shares of Series AA-3 Convertible Preferred Stock, par value \$0.001 per share (the "Series AA-3 Preferred"); (iv) 500 shares of Series AA-4 Convertible Preferred Stock, par value \$0.001 per share (the "Series AA-4 Preferred"); (v) 50 shares of Series AA-5 Convertible Preferred Stock, par value \$0.001 per share (the "Series AA-5 Preferred"); (vi) 7,245 shares of Series AAA Convertible Preferred Stock, par value \$0.001 per share (the "Series AAA Preferred"); and (vii) 3,148 shares of Series AAA-2 Convertible Preferred Stock, par value \$0.001 per share (the "Series AAA-2 Preferred"); (viii) 352 shares of Series AAA Junior Convertible Preferred Stock, par value \$.001 per share (the "Series AAA JR Preferred"); (ix) 441 shares of Series AAA-2 Junior Convertible Preferred Stock, par value \$.001 per share (the "Series AAA-2 JR Preferred"); (x) 627 shares of Series AAA-3 Junior Convertible Preferred Stock, par value \$.001 per share (the "Series AAA-3 JR Preferred"); and (xi) 399 shares of Series AAA-4 Junior Convertible Preferred Stock, par value \$.001 per share (the "Series AAA-4 JR Preferred", and, collectively with the Series AA Preferred, Series AA-2 Preferred, Series AA-3 Preferred, Series AA-4 Preferred, Series AA-5 Preferred, Series AAA Preferred, Series AAA-2 Preferred, Series AAA JR Preferred, Series AAA-2 JR Preferred, Series AAA-3 JR Preferred, and Series AAA-4 JR Preferred (the "Preferred Stock").

The issuance of shares of preferred stock with dividend or conversion rights, liquidation preferences or other economic terms favorable to the holders of preferred stock could adversely affect the market price for our common stock by making an investment in the common stock less attractive. For example, investors in the common stock may not wish to purchase Common Stock at a price above the conversion price of a series of convertible preferred stock because the holders of the preferred stock would effectively be entitled to purchase Common Stock at the lower conversion price causing economic dilution to the holders of Common Stock.

Further, the issuance of shares of preferred stock with voting rights may adversely affect the voting power of the holders of our other classes of voting stock either by diluting the voting power of our other classes of voting stock if they vote together as a single class, or by giving the holders of any such preferred stock the right to block an action on which they have a separate class vote even if the action were approved by the holders of our other classes of voting stock. The issuance of shares of preferred stock may also have the effect of delaying, deferring or preventing a change in control of our company without further action by the stockholders, even where stockholders are offered a premium for their shares.

The holders of Preferred Stock are entitled to vote on an as-converted basis to Common Stock basis and have rights to approve certain actions.

From November 2022 to December 2024, we issued an aggregate of 41,982 shares of our Preferred Stock to a group of accredited investors (collectively, the “Investors”), pursuant to certain placement agency agreements.

The holders of our Preferred Stock are generally entitled to vote with the holders of our Common Stock on all matters submitted for a vote of our stockholders (voting together with the holders of Common Stock as one class) on an as-converted basis. Additionally, the consent of the holders of a majority of the outstanding shares of Preferred Stock are required in order for us to take certain actions, including issuances of securities that are senior to, or equal in priority with, the Preferred Stock. As a result, the holders of Preferred Stock may in the future have the ability to influence the outcome of certain matters affecting our governance and capitalization.

As of May 27, 2025, there were approximately 16,426 shares of our Preferred Stock outstanding, which are convertible without payment of additional consideration, into approximately 9.9 million shares of our Common Stock, subject to certain ownership limitations. The conversion of the outstanding shares of our Preferred Stock into Common Stock would be substantially dilutive to existing stockholders. Any dilution or potential dilution may cause our stockholders to sell their shares, which may contribute to a downward movement in the stock price of our Common Stock.

Shares of our preferred stock have certain approval rights with respect to issuances of Common Stock below such preferred stocks conversion price floors. Our failure to get consent from the holders of Series AA Preferred (and all subseries thereof) prior to the issuance of the shares in this Offering may cause us to face litigation.

The Certificate of Designation of Preferences, Rights, and Limitations of the Series AA Convertible Preferred Stock (and each subseries thereof) requires us to receive consent from the majority of the holders of each subseries of Series AA Preferred prior to issuing any shares of common stock below the respective conversion price floors of such securities (the “Preferred Consents”). The shares of Common Stock, the Pre-Funded Warrants, and the shares of Common Stock underlying the Pre-Funded Warrants that are being offered and sold in the Offering are priced below the conversion price floors of the Series AA Preferred. While the Company intends to obtain ratification from the Series AA Preferred of the issuances proposed hereunder after the consummation of the Offering, if the Company fails to obtain the Preferred Consents prior to the issuance of shares issued in this Offering, it could potentially face litigation from holders of the Series AA Preferred, which may affect an investor’s ability to receive such shares of Common Stock and could have a material adverse effect on the Company’s business, financial condition, results of operations, and prospects.

Shares of our preferred stock have certain approval rights with respect to incurring debt or otherwise issuing debt securities. Our failure to get consent from the holders of Series AA Preferred (and all subseries thereof) and Series AAA Preferred (and all subseries thereof) prior to the Company incurring any indebtedness not in the ordinary course of business or entering into any agreement to do the same. Our previous incurrence of debt and issuance of debt securities may cause us to face litigation.

The Certificate of Designation of Preferences, Rights, and Limitations of the Series AA Convertible Preferred Stock (and each subseries thereof), and the Certificate of Designation of Preferences, Rights, and Limitations of the Series AAA Preferred (and each subseries thereof) requires us to receive consent from the majority of the holders of the Series AA Preferred and Series AAA Preferred prior to incurring any indebtedness not in the ordinary course of business, or entering into any agreements to do the same (the “Debt Consents”). As previously disclosed by the Company, we have previously incurred debt and entered into agreements to do the same prior to the receipt of the Debt Consents. While the Company intends to obtain ratification from the holders of Series AA Preferred and Series AAA Preferred, if the Company fails to obtain the Debt Consents (or ratification thereof), it could potentially face litigation from holders of the Series AA Preferred and Series AAA Preferred, which may affect an investor’s ability to receive such shares of Common Stock and could have a material adverse effect on the Company’s business, financial condition, results of operations, and prospects.

Future issuances of debt securities, which would rank senior to our Common Stock upon our bankruptcy or liquidation, and future issuances of preferred stock, which would rank senior to our Common Stock for the purposes of dividends and liquidating distributions, may adversely affect the level of return you may be able to achieve from an investment in our Common Stock.

In the future, we may attempt to increase our capital resources by offering debt securities. In the event of bankruptcy or liquidation, holders of our debt securities, and lenders with respect to other borrowings we may make, would receive distributions of our available assets prior to any distributions being made to holders of our Common Stock. Moreover, if we issue preferred stock in the future, the holders of such preferred stock could be entitled to preferences over holders of Common Stock in respect of the payment of dividends and the payment of liquidating distributions. Because our decision to issue debt or preferred securities in any future offering, or borrow money from lenders, will depend in part on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of any such future offerings or borrowings. Holders of our Common Stock must bear the risk that any such future offerings we conduct or borrowings we make may adversely affect the level of return they may be able to achieve from an investment in our Common Stock.

We have granted, and may continue to grant, share incentive awards, which may result in increased share-based compensation expenses.

We adopted our Amended and Restated 2014 Stock Option and Incentive Plan (the “2014 Plan”) in October 2014, for purposes of granting share-based compensation awards to employees, directors and consultants to incentivize their performance and align their interests with ours. We account for compensation costs for all share-based awards issued under the 2014 Plan using a fair-value based method and recognize expenses in our statements of comprehensive loss in accordance with GAAP. Under the 2014 Plan, we are authorized to grant options to purchase shares of Common Stock of our Company, restricted share units to receive shares of Common Stock and restricted shares of Common Stock. For the years ended December 31, 2024 and 2023, we recorded share-based compensation expense of \$1.3 million and \$2.7 million, respectively, primarily related to issuances and vesting of awards under the 2014 Plan.

We believe the granting of share incentive awards is important to our ability to attract and retain employees, and we will continue to grant share incentive awards to employees in the future. As a result, our expenses associated with share-based compensation may increase, which may have an adverse effect on our results of operations.

An active trading market for our Common Stock may not be maintained.

Our Common Stock is currently traded on the Nasdaq Capital Market, but we can provide no assurance that we will be able to maintain an active trading market on this or any other exchange in the future. If an active market for our Common Stock is not maintained, it may be difficult for our stockholders to sell or purchase shares. An inactive market may also impair our ability to raise capital to continue to fund operations by selling shares and impair our ability to acquire other companies or technologies using our shares as consideration.

We received a notice from Nasdaq that our common stock may be delisted from trading on the Nasdaq Capital Market if we fail to comply with the continued listing requirements, including the minimum bid price requirement and annual meeting requirement. A delisting of our Common Stock is likely to reduce the liquidity of our Common Stock and may inhibit or preclude our ability to raise additional financing.

We are required to comply with certain Nasdaq continued listing requirements, including a minimum bid price for our Common Stock, as well as a series of financial tests relating to stockholder equity, market value of listed securities and number of market makers and stockholders. If we fail to maintain compliance with any of those requirements, our Common Stock could be delisted from Nasdaq.

On January 2, 2025, we received a letter (the “*Bid Price Letter*”) from the Listing Qualifications Staff of Nasdaq indicating that, based upon the closingbid priceof the Company’s Common Stock, for the last 30 consecutive business days, the Company is not currently in compliance with the requirement to maintain a minimumbid priceof \$1.00 per share for continued listing on the Nasdaq Capital Market, as set forth in Nasdaq Listing Rule 5550(a)(2). On January 3, 2025, the Company received a letter (the “*Annual Meeting Letter*”) from Nasdaq indicating that the Company no longer complies with Listing Rule 5620(a) (the “*Annual Meeting Rule*”) since it did not hold an annual meeting of stockholders within twelve months of the end of the Company’s fiscal year ended December 31, 2023. On April 7, 2025, we received a letter (the “*Stockholders Equity Letter*”) notifying the Company that it is not in compliance with Nasdaq Listing Rule 5550(b)(1), which requires the Company to maintain a minimum of \$2,500,000 in stockholders’ equity for continued listing on The Nasdaq Capital Market (the “*Stockholders’ Equity Requirement*”), and that the Company does not meet the alternative compliance standards of market value of listed securities or net income from continuing operations. The Company’s failure to comply with the Stockholders’ Equity Requirement was based on the Company’s filing of its Annual Report on Form 10-K for the year ended December 31, 2024, reporting the stockholders’ equity of \$170,000.

The Company intends to monitor the closingbid price of its Common Stock. To regain compliance with Nasdaq Listing Rule 5550(a)(2), the closingbid priceof the Company’s Common Stock must be at least \$1.00 per share for 10 consecutive business days during the 180-day period from January 2, 2025 to July 1, 2025. If the Company does not regain compliance with the minimumbid pricerequirement by July 1, 2025, Nasdaq may grant the Company a second 180-day period to regain compliance. To qualify for this additional 180-day compliance period, the Company would be required to meet the continued listing requirement for market value of publicly held shares and all other initial listing standards for the Nasdaq Capital Market, other than the minimumbid pricerequirement. In addition, the Company would also be required to notify Nasdaq of its intent to cure the minimumbid pricedeficiency by effecting a reverse stock split, if necessary. If the Company does not regain compliance within the allotted compliance periods, including any extensions that may be granted by Nasdaq, Nasdaq will provide notice that the Company’s Common Stock will be subject to delisting. The Company would then be entitled to appeal that determination to a Nasdaq hearings panel. To regain compliance with the Annual Meeting Rule, the Company prepared and submitted a plan of compliance (due within 45 calendar days from receipt of the formal notice) to Nasdaq of which we are awaiting a response from Nasdaq. There is no guaranty that Nasdaq will accept our plan of compliance. To regain compliance with the Stockholders’ Equity Requirement, the Company prepared and submitted a plan of compliance (due within 45 calendar days from receipt of the formal notice) to Nasdaq of which we are awaiting a response from Nasdaq. There is no guaranty that Nasdaq will accept our plan of compliance.

If, for any reason, Nasdaq should delist our Common Stock from trading on its exchange and we are unable to obtain listing on another national securities exchange or take action to restore our compliance with the Nasdaq continued listing requirements, a reduction in some or all of the following may occur, each of which could have a material adverse effect on our stockholders:

- the liquidity of our Common Stock;
- the market price of our Common Stock;
- we will become a “penny stock”, which will make trading of our Common Stock much more difficult;
- our ability to obtain financing for the continuation of our operations;
- the number of institutional and general investors that will consider investing in our Common Stock;
- the number of investors in general that will consider investing in our Common Stock;
- the number of market makers in our Common Stock;
- the availability of information concerning the trading prices and volume of our Common Stock; and
- the number of broker-dealers willing to execute trades in shares of our Common Stock.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of shares of our Common Stock offered under this prospectus supplement will be approximately \$[●] (or approximately \$[●] assuming the Underwriter's exercise of the Option in full) after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

We currently intend to use the net proceeds we receive from this offering for working capital and general corporate purposes, including sales and marketing activities, product development and capital expenditures, as well as to repay certain indebtedness of the Company. We may also use a portion of the net proceeds to acquire or invest in complementary businesses, products and technologies. We may also invest the net proceeds from this offering in short-term, investment-grade interest-bearing securities such as money market accounts, certificates of deposit, commercial paper and guaranteed obligations of the U.S. government.

The intended use of net proceeds from this offering represents our expectations based upon our present plans and business conditions. We cannot predict with certainty all of the particular uses for the proceeds of this offering or the amounts that we will actually spend on the uses described in this prospectus supplement. Accordingly, our management will have significant flexibility in applying the net proceeds of this offering. The timing and amount of our actual expenditures will be based on many factors, including cash flows from operations and the anticipated growth of our business. Pending their use, we intend to invest the net proceeds of this offering in a variety of capital-preservation investments, including short- and intermediate-term, interest-bearing, investment-grade securities.

DIVIDEND POLICY

We have never declared or paid any dividends on our Common Stock. The payment of dividends on our Common Stock will be at the discretion of our Board of Directors and will depend on our results of operations, capital requirements, financial condition, prospects, contractual arrangements, any limitations on payment of dividends present in our current and future debt agreements, and other factors that our board of directors may deem relevant.

Holders of our Series AAA Preferred, and Series AAA-2 Preferred are entitled to receive dividends, subject to the beneficial ownership and primary market limitations, payable in the form of that number of shares of Common Stock equal to 20% of the shares of Common Stock underlying the Series AAA Preferred and Series AAA-2 Preferred then held by such holder on the 12 and 24 month anniversaries of the Effective Date.

DILUTION

If you invest in shares of our Common Stock or Pre-Funded Warrants, your ownership interest will be diluted to the extent the public offering price per share of our Common Stock or Pre-Funded Warrant exceeds the net tangible book value per share of our common stock immediately following this offering. As of March 31, 2025, the net tangible book value of our Common Stock was approximately (\$9.0 million), or (\$0.50) per share of Common Stock based on 17,829,495 shares of our Common Stock issued and outstanding. Net tangible book value per share as of a particular date represents common equity less intangible assets and goodwill, divided by the number of shares of our Common Stock outstanding.

After giving effect to the sale of [●] of shares of our Common Stock at an offering price of \$[●] per share or [●] Pre-Funded Warrants at a price of \$[●] per Pre-Funded Warrant, and (iii) after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us, but giving no effect to the possible exercise of the Underwriter's Option, the pro forma net tangible book value as of March 31, 2025 would have been approximately (\$[●] million). This represents an immediate increase in the net tangible book value of \$[●] per share to existing stockholders and an immediate dilution of \$[●] per share to the investors purchasing shares of our Common Stock or Pre-Funded Warrants in this offering.

The following table illustrates the dilution in net tangible book value per share as a result of this offering:

Public offering price per share	\$	[●]
Net tangible book value per share as of March 31, 2025	\$	(0.36)
Increase in net tangible book value per share after giving effect to this offering	\$	[●]
Pro forma net tangible book value per share as of [March 31, 2025]	\$	[●]
Dilution per share to new investors in this offering	\$	[●]

For purposes of calculating pro forma, as adjusted net tangible book value, the number of shares of our Common Stock outstanding prior to and after this offering is based on 17,829,495 shares of Common Stock outstanding as of March 31, 2025, assumes the issuance of [●] shares of our Common Stock in connection with this Offering, assumes no exercise of the Underwriter's Option, excludes the shares of Common Stock issuable upon conversion of the Pre-Funded Warrants offered by us, and excludes:

- 1,127,102 shares of Common Stock issuable upon the exercise of outstanding warrants to purchase our Common Stock, with a weighted average exercise price of \$2.33 per share;
- 359,250 shares of Common Stock issuable upon exercise of outstanding stock options under our Amended and Restated 2014 Stock Option and Incentive Plan (the "2014 Plan"), with a weighted average exercise price of \$15.65 per share;
- 127,000 shares of Common Stock reserved for future issuance pursuant to the 2014 Plan;
- 1,173,013 shares of Common Stock issuable upon vesting of outstanding restricted stock units;
- 1,838,166 shares of Common Stock issuable upon the exercise of certain Underwriter warrants to purchase our Common Stock, with a weighted average exercise price of \$2.74; and
- 10,017,663 shares of Common Stock issuable upon the conversion of the Company's Series A-5 Convertible Preferred Stock, Series AA Convertible Preferred Stock, Series AA-3 Convertible Preferred Stock, Series AA-4 Convertible Preferred Stock, Series AA-5 Convertible Preferred Stock, Series AAA Convertible Preferred Stock, Series AAA-2 Convertible Preferred Stock, Series AAA JR Preferred, Series AAA-2 JR Preferred, Series AAA-3 JR Preferred and Series AAA-4 JR Preferred.

To the extent that any of the foregoing are exercised, investors participating in the Offering will experience further dilution.

DESCRIPTION OF SECURITIES WE ARE OFFERING

Common Stock

The material terms and provisions of our Common Stock are described under the caption “Description of Capital Stock” starting on page 10 of the accompanying Prospectus.

Pre-Funded Warrants

We are offering [●] Pre-Funded Warrants.

Form

The Pre-Funded Warrants will be issued as individual warrant agreements to the investors that choose to purchase Pre-Funded Warrants in lieu of Common Stock. The form of Pre-Funded Warrant will be filed as an exhibit to a Current Report on Form 8-K that we expect to file with the SEC.

Term

Each Pre-Funded Warrant will expire upon the exercise of each such Pre-Funded Warrant in full.

Exercisability

Each Pre-Funded Warrant will be exercisable immediately upon issuance and will be exercisable until each such Pre-Funded Warrant is exercised in full. The Pre-Funded Warrants will be exercisable, at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice accompanied by a payment of the nominal exercise price in cash or by means of a cashless exercise, in which the holder would receive upon such exercise the net number of shares of our Common Stock determined according to the formula set forth in the Pre-Funded Warrant. No fractional shares of our Common Stock will be issued in connection with the exercise of a Pre-Funded Warrant. In lieu of fractional shares, we will, at our option, pay the holder an amount in cash equal to the fractional amount multiplied by the last trade price of our Common Stock on the exercise date, or round up to the next whole share. A holder will not be entitled to the return or refund of all, or any portion, of such pre-paid aggregate exercise price under any circumstance.

Exercise Limitations

We may not effect the exercise of any Pre-Funded Warrant, and a holder will not be entitled to exercise any portion of any such warrant, if, upon giving effect to such exercise, the aggregate number of shares of Common Stock beneficially owned by the holder (together with its affiliates, any other persons acting as a group together with the holder or any of the holder’s affiliates, and any other persons whose beneficial ownership of Common Stock would or could be aggregated with the holder’s for purposes of Section 13(d) or Section 16 of the Exchange Act) would exceed 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of such Pre-Funded Warrant..

Exercise Price

The exercise price of the Pre-Funded Warrants is \$0.00001 per share of Common Stock. The exercise price of the Pre-Funded Warrants and the number of shares of our Common Stock issuable upon exercise of the Pre-Funded Warrants is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our Common Stock, as well as upon any distribution of assets, including cash, stock or other property, to our stockholders. The exercise price of the Pre-Funded Warrants will not be adjusted below the par value of our Common Stock.

Transferability

Subject to applicable laws, the Pre-Funded Warrants may be offered for sale, sold, transferred or assigned without our consent.

Exchange Listing

There is no established public trading market for the Pre-Funded Warrants, and we do not expect a market to develop. We do not intend to list the Pre-Funded Warrants on the Nasdaq Capital Market, any other national securities exchange or any other nationally recognized trading system.

Fundamental Transactions

Upon the consummation of a fundamental transaction (as described in the Pre-Funded Warrants, and generally including any reorganization, recapitalization or reclassification of our Common Stock, the sale, transfer or other disposition of all or substantially all of our assets, our consolidation or merger with or into another person in which we are not the surviving entity, the acquisition of more than 50% of our outstanding Common Stock, or any person or group becoming the beneficial owner of 50% of the voting power of our outstanding Common Stock), the holders of the Pre-Funded Warrants will be entitled to receive, upon exercise of the Pre-Funded Warrants, the same kind and amount of securities, cash or other property that such holders would have received had they exercised the Pre-Funded Warrants immediately prior to such fundamental transaction, without regard to any limitations on exercise contained in the Pre-Funded Warrants.

No Rights as a Stockholder

Except by virtue of such holder’s ownership of other shares of our Common Stock, the holder of a Pre-Funded Warrant does not have the rights or privileges of a holder of our Common Stock, including any voting rights, until such holder exercises the Pre-Funded Warrant.

Transfer Agent and Registrar

Our transfer agent is Issuer Direct Corporation, inclusive of its subsidiary Direct Transfer, LLC, whose address is One Glenwood Ave, Suite 1001, Raleigh, NC 27603 and its telephone number is (919) 744-2722.

UNDERWRITING

We are offering the shares of Common Stock and Pre-Funded Warrants described in this prospectus supplement and the accompanying prospectus through the underwriter listed below. Aegis Capital Corp. “*Aegis*” or the “*Underwriter*”) is acting as the exclusive underwriter in connection with this offering. The Underwriter has agreed to buy, subject to the terms of the underwriting agreement entered into between the Company and the Underwriter on May [●], 2025, the number of securities listed opposite its name below. The Underwriter is committed to purchase and pay for all of the securities if any are purchased, other than those securities covered by the over-allotment option described below.

Underwriter	Number of shares of Common Stock	Number of Pre-Funded Warrants
Aegis Capital Corp.		

The Underwriter is offering the shares of Common Stock and Pre-Funded Warrants subject to various conditions and may reject all or part of any order. The Underwriter has advised us that it proposes to offer the shares of Common Stock directly to the public at the public offering price per share of \$[●] and the Pre-Funded Warrants directly to the public at the public offering price per share of \$[●]. After the shares of common stock are released for sale to the public, the Underwriter may change the offering price and other selling terms at various times.

Over-allotment Option

We have granted to the Underwriter an Option exercisable not later than 45 days after the date of this prospectus supplement to purchase up to an additional shares of Common Stock (up to 15.0% of the number of shares of Common Stock and Pre-Funded Warrants sold in this offering). The Underwriter may exercise the option solely to cover over-allotments, if any, made in connection with this Offering. To the extent the Underwriter exercises the option, the Underwriter will become obligated, subject to certain conditions, to purchase the shares of Common Stock or Pre-Funded Warrants for which it exercises the Option.

Underwriting Discounts and Expenses

The following table summarizes the underwriting discount and commission to be paid to the Underwriter by us. These amounts are shown assuming both no exercise and full exercise of the Option.

	Per Share of Common Stock(1)	Per Pre- Funded Warrant	Total with no Over- Allotment	Total with Full Exercise of Over- Allotment
Public offering price	\$		\$	\$
Underwriting discount to be paid to the underwriters by us (8.0%)				
Proceeds to us (before expenses)				

(1) We have agreed to an underwriting discount equal to 8.0% of the gross proceeds received in this offering.

We have agreed to pay the Underwriter an accountable expense allowance for certain of the Underwriter’s expenses relating to the offering, including, but not limited to, the Underwriter’s legal fees, fees and expenses up to a maximum of \$40,000 and reasonable out of pocket expenses incurred in this offering. We estimate that the total expenses of this offering, excluding underwriting discounts, will be \$[●]. These expenses are all payable by us.

Indemnification

We have agreed to indemnify the Underwriter against certain liabilities, including liabilities under the Securities Act, or to contribute to payments that the Underwriter may be required to make in respect of those liabilities.

Company Standstill

We have agreed, subject to limited exceptions, for a period of 60 days after the closing of this Offering, not to offer, sell, contract to sell, pledge, grant any option to purchase, make any short sale or otherwise dispose of, directly or indirectly any shares of Common Stock or any securities convertible into or exchangeable for our Common Stock either owned as of the date of the underwriting agreement or thereafter acquired without the prior written consent of the Underwriter. In addition, we have agreed to not issue any securities that are subject to a price reset based on the trading prices of our Common Stock or upon a specified or contingent event in the future or enter into any agreement to issue securities at a future determined price for a period of 30 days following the closing date of this Offering. The Underwriter may, in its sole discretion and at any time or from time to time before the termination of the lock-up period, without notice, release all or any portion of the securities subject to the lock-up restriction.

Lock-Up Agreements

Pursuant to certain “lock-up” agreements, our executive officers, directors, employees and holders of at least 10% of our Company’s Common Stock and securities exercisable for or convertible into its Common Stock outstanding immediately upon the closing of this offering, have agreed, subject to certain exceptions, not to offer, sell, assign, transfer, pledge, contract to sell, or otherwise dispose of or announce the intention to otherwise dispose of, or enter into any swap, hedge or similar agreement or arrangement that transfers, in whole or in part, the economic risk of ownership of, directly or indirectly, engage in any short selling of any shares of Common Stock or securities convertible into or exchangeable or exercisable for any shares of Common Stock (“Lock-Up Securities”), whether currently owned or subsequently acquired, without the prior written consent of the underwriter, for a period of sixty (60) days after the closing date of the offering. See “Shares Eligible for Future Sale – Lock-Up Agreements.”

The underwriter, in its sole discretion, may release the Common Stock and Pre-Funded Warrants and other securities subject to the lock-up agreements described above in whole or in part at any time. When determining whether or not to release Common Stock and Pre-Funded Warrants and other securities from lock-up agreements, the underwriter will consider, among other factors, the holder’s reasons for requesting the release, the number of shares of Common Stock and Pre-Funded Warrants and other securities for which the release is being requested and market conditions at the time.

Price Stabilization, Short Positions and Penalty Bids

In connection with this offering, the Underwriter may engage in activities that stabilize, maintain or otherwise affect the price of our securities during and after this Offering, including: stabilizing transactions; short sales; purchases to cover positions created by short sales; imposition of penalty bids; and syndicate covering transactions.

Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of our shares of Common Stock while this offering is in progress. Stabilization transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. These transactions may also include making short sales of our shares of Common Stock, which involve the sale by the Underwriter of a greater number of shares of Common Stock than it is required to purchase in this Offering and purchasing shares of Common Stock on the open market to cover short positions created by short sales. Short sales may be “covered short sales,” which are short positions in an amount not greater than the Underwriter’s Option to purchase additional shares referred to above, or may be “naked short sales,” which are short positions in excess of that amount.

The Underwriter may close out any covered short position by either exercising its option, in whole or in part, or by purchasing shares in the open market. In making this determination, the Underwriter will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which it may purchase shares through the over-allotment option.

Naked short sales are short sales made in excess of the over-allotment option. The Underwriter must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the Underwriter is concerned that there may be downward pressure on the price of the shares of Common Stock in the open market that could adversely affect investors who purchased in this Offering.

The Underwriter also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because Aegis has repurchased shares sold by or for the account of that underwriter in stabilizing or short covering transactions.

These stabilizing transactions, short sales, purchases to cover positions created by short sales, the imposition of penalty bids and syndicate covering transactions may have the effect of raising or maintaining the market price of our Common Stock or preventing or retarding a decline in the market price of our Common Stock. As a result of these activities, the price of our Common Stock may be higher than the price that otherwise might exist in the open market. The Underwriter may carry out these transactions on Nasdaq, in the over-the-counter market or otherwise. Neither we nor the Underwriter make any representation or prediction as to the effect that the transactions described above may have on the price of the shares. Neither we, nor the Underwriter makes any representation that the underwriters will engage in these stabilization transactions or that any transaction, once commenced, will not be discontinued without notice.

Aegis shall be entitled to compensation with respect to any public or private offering or other financing or capital raising transaction of any kind ("Tail Financing") to the extent that such financing or capital is provided to us by investors Aegis has introduced to us and/or contacted on our behalf through an in-person, electronic or telephonic communication or investors that Aegis had "wall-crossed" in connection with this offering (or any entity under common management or having a common investment advisor), if such Tail Financing is consummated at any time within the eighteen (18) months period beginning on the Closing or the expiration or termination of engagement letter between Aegis and us dated May 8, 2025.

In the ordinary course of its business activities, the underwriter and its affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively traded securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligation or otherwise) publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

Unless the context requires otherwise, the words “we,” “us,” “our,” the “Company,” “Super League,” and “Super League Enterprise” refer to Super League Enterprise, Inc., a Delaware corporation, and its wholly owned subsidiaries, Mobcrush Streaming, Inc., a Delaware corporation, and Super League Gaming, UK Ltd., a company organized under the laws of England and Wales.

Overview

Super League Enterprise, Inc. (Nasdaq: SLE), (“Super League,” the “Company,” “we,” “us” or “our”) is redefining the gaming industry as a media channel for global brands. As a leading end-to-end immersive content partner, Super League enables marketers, advertisers, and IP owners to reach massive audiences through creativity, innovation, and gameplay within the world’s largest immersive platforms. Boasting an award-winning development studio, a vast community of native creators, and a proprietary suite of tools that maximize user engagement, Super League is a one-of-a-kind holistic solutions provider. Whether a partner is focused on building a world-class creative experience, achieving a lift in brand awareness, inspiring deeper customer loyalty, or finding new sources of revenue, Super League is at the forefront – always pioneering within immersive worlds.

Our Strategy

We believe that immersive world platforms are where the next generation lives and are a launchpad of unlimited new interactive content. In a world of blended physical-to-digital lives and smarter, more immersive screens, consumer expectations are increasing for more customized and personalized digital experiences, changing the way consumers will socialize, play, create, collaborate, shop, learn and work.

While our roots are in open gaming platforms where interactive worlds were first spawned, we believe our success is in the creation, growth, and monetization of digital experiences across the wider immersive web landscape. Super League’s vision is to build the most comprehensive immersive web publishing engine and be the driver of the next generation of digital platform businesses and experiences.

Built on a powerful foundation of unmatched capabilities, solutions and software platforms that have driven consistent success for innovative brand experiences, creator growth and monetization, and significant consumer engagement, our scalable, vertically-integrated engine offers:

- Successful owned and third-party publishing worlds, experiences and destinations;
- Innovative marketing solutions for brands and developers; and
- Valued tools and services for creators and developers.

Our Business

As an early mover creating engaging experiences inside of metaverse, or “open world,” game platforms since 2015, Super League has converted our deep understanding of young gamers into significant audience reach into immersive worlds including virtual gaming platforms. We believe we have successfully iterated our business model through these market insights, and our organic and inorganic growth to establish scale and ultimately drive our monetization strategies. Our strong and growing product-market fit currently reaches over 100 million monthly unique players in Roblox, Minecraft and Fortnite, collectively, and generates over one billion monthly impressions. Our software supports the creation and operation of our owned and third-party immersive worlds and experiences, along with creator tools and analytics underpinned by a creator economy. These tools enable Super League to access these extended audiences with our innovative in-game and in-stream ad products, and allow our game designers and content creators to participate in our advertising economy. Our analytics suite provides Super League, brands and advertisers, and game developers data that informs campaign measurement and insights, along with enhanced game design. Beyond our primary advertising revenue stream, we have the opportunity to extend further downstream in all forms of immersive worlds we operate and generate direct to consumer revenues. In addition, our immersive world platforms, and our capability to produce compelling gaming-centric video and livestream broadcasts drives viewership to our own and our brand partner’s digital channels and generates content production and syndication revenues from third party partners.

Specifically, Super League’s digital experience and media products provide a wide range of solutions for brands and advertisers. From branded in-game experiences, through to custom content and media, Super League can provide end-to-end solutions for brands to acquire customers, deepen brand affinity and deliver campaign performance with innovative advertising inventory. As Super League has scaled in both metaverse player, immersive worlds and viewing audience reach, we have experienced growth in both the average revenue size of advertiser programs, along with a strong percentage of repeat buyers, while upholding our premium cost per impressions (“CPM”) advertising rates and margins, further validating a new premium social marketing channel for advertisers to reach elusive Generation Z and Alpha gamers. Additionally, our capability and proprietary technology is now being applied to new virtual and immersive world platforms beyond our core offering and is proving to be an enterprise solution for our owned and branded digital experiences that are less temporal and campaign-centric, generating revenue opportunities that are more diversified, annual in nature and less impacted by traditional advertising seasonality.

Implications of Being an Emerging Growth Company

As a company with less than \$1.07 billion in revenue during our most recently completed fiscal year, we qualify as an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012 (the “*JOBS Act*”). An emerging growth company may take advantage of specified reduced reporting and other burdens that are otherwise applicable generally to public companies. These provisions include:

- A requirement to have only two years of audited financial statements and only two years of related Management’s Discussion and Analysis of Financial Condition and Results of Operations;
- An exemption from the auditor attestation requirement on the effectiveness of our internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act of 2002, as amended (the “*Sarbanes-Oxley Act*”);
- An extended transition period for complying with new or revised accounting standards;
- Reduced disclosure about our executive compensation arrangements; and
- No non-binding advisory votes on executive compensation or golden parachute arrangements.

Certain of these reduced reporting requirements and exemptions are also available to us due to the fact that we also qualify as a “smaller reporting company” under the SEC’s rules. For instance, smaller reporting companies are not required to obtain an auditor attestation and report regarding management’s assessment of internal control over financial reporting; are not required to provide a compensation discussion and analysis; are not required to provide a pay-for-performance graph or CEO pay ratio disclosure; and may present only two years of audited financial statements and related MD&A disclosure.

We may take advantage of these provisions from the JOBS Act until the end of the fiscal year in which the fifth anniversary of our initial public offering, or such earlier time when we no longer qualify as an emerging growth company. We would cease to be an emerging growth company on the earlier of (i) the last day of the fiscal year (a) in which we have more than \$1.07 billion in annual revenue or (b) in which we have more than \$700 million in market value of our capital stock held by non-affiliates, or (ii) the date on which we issue more than \$1.0 billion of non-convertible debt over a three-year period. We may choose to take advantage of some but not all of these reduced burdens under the JOBS Act. We have taken advantage of other reduced reporting requirements in this prospectus, and we may choose to do so in future filings. To the extent we do, the information that we provide stockholders may be different than you might get from other public companies in which you hold equity interests.

RISK FACTORS

Investing in our securities involves a high degree of risk. Before deciding whether to purchase any of our securities, you should carefully consider the risks and uncertainties described under “*Risk Factors*” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 filed with the SEC on April 15, 2024, and our other filings with the SEC, all of which are incorporated by reference herein. If any of these risks actually occur, our business, financial condition and results of operations could be materially and adversely affected and we may not be able to achieve our goals, the value of our securities could decline and you could lose some or all of your investment. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks occur, the trading price of our Common Stock could decline materially and you could lose all or part of your investment.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference herein contain forward-looking statements that involve substantial risks and uncertainties. The forward-looking statements are contained principally in the sections of this prospectus entitled “*Prospectus Summary*” and “*Risk Factors*,” as well as in those sections of our Annual Report on Form 10-K for the year ended December 31, 2023 (the “*2023 Annual Report*”) entitled “*Business*,” “*Risk Factors*,” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*,” but are also contained elsewhere in this prospectus. In some cases, you can identify forward-looking statements by the words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “objective,” “ongoing,” “plan,” “predict,” “project,” “potential,” “should,” “will,” or “would,” or the negative of these terms, or other comparable terminology intended to identify statements about the future. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from the information expressed or implied by these forward-looking statements. Although we believe that we have a reasonable basis for making each forward-looking statement contained in this prospectus, we caution you that these statements are based on a combination of facts and factors currently known by us and our expectations of the future, about which we cannot be certain. Forward-looking statements are subject to considerable risks and uncertainties, as well as other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from the information expressed or implied by these forward-looking statements, including:

- the overall strength and stability of general economic conditions and of the in-person electronic video game sports (“*esports*”) industry in the United States and globally;
- changes in consumer demand for, and acceptance of, our immersive world experiences and services and the games that we license, as well as online virtual gaming in general;
- changes in the competitive environment, including adoption of technologies, services and products that compete with our own;
- our ability to generate consistent revenue and become profitable;
- our ability to effectively execute our business plan;
- changes in the price of streaming services, licensing fees, and network infrastructure, hosting and maintenance;
- changes in laws or regulations governing our business and operations;
- our ability to maintain adequate liquidity and financing sources and an appropriate level of debt on terms favorable to us;
- our ability to effectively market our services;
- costs and risks associated with litigation;
- our ability to obtain and protect our existing intellectual property protections, including patents, trademarks and copyrights;
- our ability to obtain and enter into new licensing agreements with game publishers and owners;
- changes in accounting principles, or their application or interpretation, and our ability to make estimates and the assumptions underlying the estimates, which could have an effect on earnings;
- interest rates and the credit markets; and
- other risks and uncertainties, including those described within the section entitled “*Risk Factors*” in our 2023 Annual Report, and subsequent Quarterly Reports on Form 10-Q, which risk factors are incorporated herein by reference.

This list of factors that may affect future performance and the accuracy of forward-looking statements is illustrative, but not exhaustive. New risk factors and uncertainties not described here or elsewhere in this prospectus, including in the section entitled “*Risk Factors*,” may emerge from time to time. Moreover, because we operate in a competitive and rapidly changing environment, it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. The forward-looking statements are also subject to the risks and uncertainties specific to our Company, including but not limited to the fact that we have only a limited operating history as a public company. Each share of Series A Preferred is convertible at the option of the holder, subject to certain beneficial ownership limitations and primary market limitations as set forth in the Series A Certificate of Designation, into such number of shares of the Company's Common Stock equal to the number of Series A Preferred to be converted, multiplied by the stated value of \$1,000 (the "*Stated Value*"), divided by the conversion price in effect at the time of the conversion (the initial conversion price is \$12.40, subject to adjustment in the event of stock splits, stock dividends, and similar transactions). In addition, subject to beneficial ownership and primary market limitations: (1) the Series A Preferred will automatically convert into shares of Common Stock at the Conversion Price upon the earlier of (a) the 24-month anniversary of the filing date of the Series A-2 Preferred Certificate of Designation with the Delaware Secretary of State (the "*Series A Effective Date*") or (b) the consent to conversion by holders of at least 51% of the outstanding shares of Series A Preferred; and (2) on the one year anniversary of the Series A Effective Date, the Company may, in its discretion, convert (y) 50% of the outstanding shares of Series A Preferred if the volume-weighted average price of the Company's Common Stock over the previous 10 days as reported on the NASDAQ Capital Market (the "*VWAP*"), equals at least 250% of the Conversion Price, or (z) 100% of the outstanding shares of Series A Preferred if and only if the VWAP equals at least 300% of the Conversion Price.

Anti-Takeover Matters

Charter and Bylaw Provisions

The provisions of Delaware law, our Charter, and our Bylaws include a number of provisions that may have the effect of delaying, deferring, or discouraging another person from acquiring control of our company and discouraging takeover bids. These provisions may also have the effect of encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our Board rather than pursue non-negotiated takeover attempts. These provisions include the items described below.

Board Composition and Filling Vacancies

Our Bylaws provide that any vacancy on our Board may only be filled by the affirmative vote of a majority of our directors then in office, even if less than a quorum. Further, any directorship vacancy resulting from an increase in the size of our Board of Directors, may be filled by election of the Board of Directors, but only for a term continuing until the next election of directors by our stockholders.

No Cumulative Voting

The Delaware General Corporation Law (the “DGCL”) provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless certificate of incorporation of the Company in which they own stock provides otherwise. Neither our Charter nor our Bylaws provide that our stockholders shall be entitled to cumulative voting.

Delaware Anti-Takeover Statute

We are subject to the provisions of Section 203 of the DGCL. In general, Section 203 prohibits persons deemed to be “interested stockholders” from engaging in a “business combination” with a publicly held Delaware corporation for three years following the date these persons become interested stockholders unless the business combination is, or the transaction in which the person became an interested stockholder was, approved in a prescribed manner or another prescribed exception applies. Generally, an “interested stockholder” is a person who, together with affiliates and associates, owns, or within three years prior to the determination of interested stockholder status did own, 15% or more of a corporation’s voting stock. Generally, a “business combination” includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the Board. A Delaware corporation may “opt out” of these provisions with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from an amendment approved by at least a majority of the outstanding voting shares. We have not opted out of these provisions. As a result, mergers or other takeover or change in control attempts of us may be discouraged or prevented.

Choice of Forum

Our Bylaws provide that Delaware will be the exclusive forum for any derivative action or proceeding brought on our behalf; any action asserting a breach of fiduciary duty; any action asserting a claim against us arising pursuant to the DGCL, our Charter or our Bylaws; or any action asserting a claim against us that is governed by the internal affairs doctrine. The enforceability of similar choice of forum provisions in other companies’ certificates of incorporation has been challenged in legal proceedings, and it is possible that a court could find these types of provisions to be inapplicable or unenforceable.

Because the applicability of the exclusive forum provision is limited to the extent permitted by law, we believe that the exclusive forum provision would not apply to suits brought to enforce any duty or liability created by the Securities Act, the Exchange Act, any other claim for which the federal courts have exclusive jurisdiction or concurrent jurisdiction over all suits brought to enforce any duty or liability created by the Securities Act. We note that there is uncertainty as to whether a court would enforce the provision and that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

DESCRIPTION OF OUR DEBT SECURITIES

This section describes the general terms and provisions of debt securities that we may issue from time to time. We may issue debt securities, in one or more series, as either senior or subordinated debt or as senior or subordinated convertible debt. While the terms we have summarized below will apply generally to any future debt securities we may offer under this prospectus, the applicable prospectus supplement or free writing prospectus will describe the specific terms of any debt securities offered through that prospectus supplement or free writing prospectus. The terms of any debt securities we offer under a prospectus supplement or free writing prospectus may differ from the terms we describe below. Unless the context requires otherwise, whenever we refer to the “indentures,” we also are referring to any supplemental indentures that specify the terms of a particular series of debt securities.

In the event that we issue any debt securities, we will issue such senior debt securities under a senior indenture that we will enter into with the trustee named in such senior indenture. We will file forms of these documents as exhibits to the registration statement, of which this prospectus is a part, and supplemental indentures and forms of debt securities containing the terms of the debt securities being offered will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC.

The indentures will be qualified under the Trust Indenture Act of 1939, as amended, (the “*Trust Indenture Act*”). We use the term “trustee” to refer to either the trustee under the senior indenture or the trustee under the subordinated indenture, as applicable.

The following summaries of material provisions of potential senior debt securities, subordinated debt securities and the indentures are subject to, and qualified in their entirety by reference to, all of the provisions of the indenture applicable to a particular series of debt securities. We urge you to read the applicable prospectus supplement or free writing prospectus and any related free writing prospectuses related to the debt securities that we may offer under this prospectus, as well as the complete applicable indenture that contains the terms of the debt securities. Except as we may otherwise indicate, the terms of the senior indenture and the subordinated indenture are identical.

 - enter into sale-leaseback transactions;
 - engage in transactions with stockholders or affiliates;
 - issue or sell stock of our subsidiaries; or
 - effect a consolidation or merger;
- whether the indenture will require us to maintain any interest coverage, fixed charge, cash flow-based, asset-based or other financial ratios;
- a discussion of certain material or special United States federal income tax considerations applicable to the debt securities;
- information describing any book-entry features;
- provisions for a sinking fund purchase or other analogous fund, if any;
- the applicability of the provisions in the indenture on discharge;
- whether the debt securities are to be offered at a price such that they will be deemed to be offered at an "original issue discount" as defined in paragraph (a) of Section 1273 of the Internal Revenue Code of 1986, as amended;
- the denominations in which we will issue the series of debt securities, if other than denominations of \$1,000 and any integral multiple thereof;
- the currency of payment of debt securities if other than U.S. dollars and the manner of determining the equivalent amount in U.S. dollars; and

- any other specific terms, preferences, rights or limitations of, or restrictions on, the debt securities, including any additional events of default or covenants provided with respect to the debt securities, and any terms that may be required by us or advisable under applicable laws or regulations or advisable in connection with the marketing of the debt securities.

Conversion or Exchange Rights

We will set forth in the applicable prospectus supplement or free writing prospectus the terms on which a series of debt securities may be convertible into or exchangeable for our common stock, our preferred stock or other securities (including securities of a third-party). We will include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option. We may include provisions pursuant to which the number of shares of our common stock, our preferred stock or other securities (including securities of a third-party) that the holders of the series of debt securities receive would be subject to adjustment.

Consolidation, Merger or Sale

Unless we provide otherwise in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, the indentures will not contain any covenant that restricts our ability to merge or consolidate, or sell, convey, transfer or otherwise dispose of all or substantially all of our assets. However, any successor to or acquirer of such assets must assume all of our obligations under the indentures or the debt securities, as appropriate. If the debt securities are convertible into or exchangeable for other securities of ours or securities of other entities, the person with whom we consolidate or merge or to whom we sell all of our property must make provisions for the conversion of the debt securities into securities that the holders of the debt securities would have received if they had converted the debt securities before the consolidation, merger or sale.

Events of Default Under the Indenture

Unless we provide otherwise in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, the following are events of default under the indentures with respect to any series of debt securities that we may issue:

- if we fail to pay interest when due and payable and our failure continues for 90 days and the time for payment has not been extended;
- if we fail to pay the principal, premium or sinking fund payment, if any, when due and payable at maturity, upon redemption or repurchase or otherwise, and the time for payment has not been extended;
- if we fail to observe or perform any other covenant contained in the debt securities or the indentures, other than a covenant specifically relating to another series of debt securities, and our failure continues for 90 days after we receive notice from the trustee or holders of at least 25% in aggregate principal amount of the outstanding debt securities of the applicable series; and
- if specified events of bankruptcy, insolvency or reorganization occur.

We will describe in each applicable prospectus supplement or free writing prospectus any additional events of default relating to the relevant series of debt securities.

If an event of default with respect to debt securities of any series occurs and is continuing, other than an event of default specified in the last bullet point above, the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series, by notice to us in writing, and to the trustee if notice is given by such holders, may declare the unpaid principal, premium, if any, and accrued interest, if any, due and payable immediately. If an event of default specified in the last bullet point above occurs with respect to us, the unpaid principal, premium, if any, and accrued interest, if any, of each issue of debt securities then outstanding shall be due and payable without any notice or other action on the part of the trustee or any holder.

The holders of a majority in principal amount of the outstanding debt securities of an affected series may waive any default or event of default with respect to the series and its consequences, except defaults or events of default regarding payment of principal, premium, if any, or interest, unless we have cured the default or event of default in accordance with the indenture. Any waiver shall cure the default or event of default.

Subject to the terms of the indentures, if an event of default under an indenture shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under such indenture at the request or direction of any of the holders of the applicable series of debt securities, unless such holders have offered the trustee reasonable indemnity or security satisfactory to it against any loss, liability or expense. The holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of that series, provided that:

- the direction so given by the holder is not in conflict with any law or the applicable indenture; and
- subject to its duties under the Trust Indenture Act, the trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders not involved in the proceeding.

A holder of the debt securities of any series will have the right to institute a proceeding under the indentures or to appoint a receiver or trustee, or to seek other remedies if:

- the holder has given written notice to the trustee of a continuing event of default with respect to that series;
- the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made written request, and such holders have offered reasonable indemnity to the trustee or security satisfactory to it against any loss, liability or expense or to be incurred in compliance with instituting the proceeding as trustee; and
- the trustee does not institute the proceeding, and does not receive from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series other conflicting directions within 90 days after the notice, request and offer.

These limitations do not apply to a suit instituted by a holder of debt securities if we default in the payment of the principal, premium, if any, or interest on, the debt securities, or other defaults that may be specified in the applicable prospectus supplement or free writing prospectus.

We will periodically file statements with the trustee regarding our compliance with specified covenants in the indentures.

Modification of Indenture; Waiver

Subject to the terms of the indenture for any series of debt securities that we may issue, we and the trustee may change an indenture without the consent of any holders with respect to the following specific matters:

- to fix any ambiguity, defect or inconsistency in the indenture;
- to comply with the provisions described above under “*Description of Our Debt Securities—Consolidation, Merger or Sale*,”
- to comply with any requirements of the SEC in connection with the qualification of any indenture under the Trust Indenture Act;
- to add to, delete from or revise the conditions, limitations, and restrictions on the authorized amount, terms, or purposes of issue, authentication and delivery of debt securities, as set forth in the indenture;
- to provide for the issuance of and establish the form and terms and conditions of the debt securities of any series as provided under “*Description of Our Debt Securities—General*,” to establish the form of any certifications required to be furnished pursuant to the terms of the indenture or any series of debt securities, or to add to the rights of the holders of any series of debt securities;
- to evidence and provide for the acceptance of appointment hereunder by a successor trustee;

- to provide for uncertificated debt securities and to make all appropriate changes for such purpose;
- to add to our covenants such new covenants, restrictions, conditions or provisions for the benefit of the holders, to make the occurrence, or the occurrence and the continuance, of a default in any such additional covenants, restrictions, conditions or provisions an event of default or to surrender any right or power conferred to us in the indenture; or
- to change anything that does not materially adversely affect the interests of any holder of debt securities of any series.
- In addition, under the indentures, the rights of holders of a series of debt securities may be changed by us and the trustee with the written consent of the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series that is affected. However, subject to the terms of the indenture for any series of debt securities that we may issue or as otherwise provided in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, we and the trustee may make the following changes only with the consent of each holder of any outstanding debt securities affected:
- extending the stated maturity of the series of debt securities;
- reducing the principal amount, reducing the rate of or extending the time of payment of interest, or reducing any premium payable upon the redemption or repurchase of any debt securities; or
- reducing the percentage of debt securities, the holders of which are required to consent to any amendment, supplement, modification or waiver.

Discharge

Each indenture provides that, subject to the terms of the indenture and any limitation otherwise provided in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, we can elect to be discharged from our obligations with respect to one or more series of debt securities, except for specified obligations, including obligations to:

- register the transfer or exchange of debt securities of the series;
- replace stolen, lost or mutilated debt securities of the series;
- maintain paying agencies;
- hold monies for payment in trust;
- recover excess money held by the trustee;
- compensate and indemnify the trustee; and
- appoint any successor trustee.

In order to exercise our rights to be discharged, we must deposit with the trustee money or government obligations sufficient to pay all the principal of, and any premium and interest on, the debt securities of the series on the dates payments are due.

Form, Exchange and Transfer

In the event that we issue debt securities, we will issue such debt securities of each series only in fully registered form without coupons and, unless we otherwise specify in the applicable prospectus supplement or free writing prospectus, in denominations of \$1,000 and any integral multiple thereof. The indentures provide that we may issue debt securities of a series in temporary or permanent global form and as book-entry securities that will be deposited with, or on behalf of, The Depository Trust Company or another depository named by us and identified in a prospectus supplement or free writing prospectus with respect to that series.

At the option of the holder, subject to the terms of the indentures and the limitations applicable to global securities described in the applicable prospectus supplement or free writing prospectus, the holder of the debt securities of any series can exchange the debt securities for other debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the indentures and the limitations applicable to global securities set forth in the applicable prospectus supplement or free writing prospectus, holders of the debt securities may present the debt securities for exchange or for registration of transfer, duly endorsed or with the form of transfer endorsed thereon duly executed if so required by us or the security registrar, at the office of the security registrar or at the office of any transfer agent designated by us for this purpose. Unless otherwise provided in the debt securities that the holder presents for transfer or exchange, we will make no service charge for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges.

We will name in the applicable prospectus supplement or free writing prospectus the security registrar, and any transfer agent in addition to the security registrar, that we initially designate for any debt securities. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the debt securities of each series. If we elect to redeem the debt securities of any series, we will not be required to:

- issue, register the transfer of, or exchange any debt securities of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any debt securities that may be selected for redemption and ending at the close of business on the day of the mailing; or
- register the transfer of or exchange any debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any debt securities we are redeeming in part.

Information Concerning the Trustee

The trustee, other than during the occurrence and continuance of an event of default under an indenture, undertakes to perform only those duties as are specifically set forth in the applicable indenture. Upon an event of default under an indenture, the trustee must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs.

Subject to this provision, the trustee is under no obligation to exercise any of the powers given it by the indentures at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses and liabilities that it might incur.

Payment and Paying Agents

Unless we otherwise indicate in the applicable prospectus supplement or free writing prospectus, we will make payment of the interest on any debt securities on any interest payment date to the person in whose name the debt securities, or one or more predecessor securities, are registered at the close of business on the regular record date for the interest.

We will pay principal of and any premium and interest on the debt securities of a particular series at the office of the paying agents designated by us, except that unless we otherwise indicate in the applicable prospectus supplement or free writing prospectus, we will make interest payments by check that we will mail to the holder or by wire transfer to certain holders. Unless we otherwise indicate in the applicable prospectus supplement or free writing prospectus, we will designate the corporate trust office of the trustee as our sole paying agent for payments with respect to debt securities of each series. We will name in the applicable prospectus supplement or free writing prospectus any other paying agents that we initially designate for the debt securities of a particular series. We will maintain a paying agent in each place of payment for the debt securities of a particular series.

All money we pay to a paying agent or the trustee for the payment of the principal of or any premium or interest on any debt securities that remains unclaimed at the end of two years after such principal, premium or interest has become due and payable will be repaid to us, and the holder of the debt security thereafter may look only to us for payment thereof.

Governing Law

The indentures and the debt securities will be governed by and construed in accordance with the laws of the State of New York, except to the extent that the Trust Indenture Act is applicable.

Ranking of Debt Securities

The subordinated debt securities will be subordinate and junior in priority of payment to certain of our other indebtedness to the extent described in a prospectus supplement or free writing prospectus. The subordinated indenture does not limit the amount of subordinated debt securities that we may issue. It also does not limit us from issuing any other secured or unsecured debt.

The senior debt securities will rank equally in right of payment to all our other senior unsecured debt. The senior indenture does not limit the amount of senior debt securities that we may issue. It also does not limit us from issuing any other secured or unsecured debt.

DESCRIPTION OF WARRANTS

The following description, together with the additional information we include in any applicable prospectus supplements or free writing prospectus, summarizes the material terms and provisions of the warrants that we may offer under this prospectus. Warrants may be offered independently or together with common stock, preferred stock and/or debt securities offered by any prospectus supplement or free writing prospectus, and may be attached to or separate from those securities. While the terms we have summarized below will generally apply to any future warrants we may offer under this prospectus, we will describe the particular terms of any warrants that we may offer in more detail in the applicable prospectus supplement or free writing prospectus. The terms of any warrants we offer under a prospectus supplement or free writing prospectus may differ from the terms we describe below.

In the event that we issue warrants, we will issue the warrants under a warrant agreement, which we will enter into with a warrant agent to be selected by us. Forms of these warrant agreements and forms of the warrant certificates representing the warrants, and the complete warrant agreements and forms of warrant certificates containing the terms of the warrants being offered, will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC. We use the term “warrant agreement” to refer to any of these warrant agreements. We use the term “warrant agent” to refer to the warrant agent under any of these warrant agreements. The warrant agent will act solely as an agent of ours in connection with the warrants and will not act as an agent for the holders or beneficial owners of the warrants.

The following summaries of material provisions of the warrants and the warrant agreements are subject to, and qualified in their entirety by reference to, all the provisions of the warrant agreement applicable to a particular series of warrants. We urge you to read the applicable prospectus supplements or free writing prospectus related to the warrants that we sell under this prospectus, as well as the complete warrant agreements that contain the terms of the warrants.

General

We will describe in the applicable prospectus supplement or free writing prospectus the terms relating to a series of warrants. If warrants for the purchase of common stock or preferred stock are offered, the prospectus supplement or free writing prospectus will describe the following terms, to the extent applicable:

- the offering price and the aggregate number of warrants offered;
- the total number of shares that can be purchased if a holder of the warrants exercises them and, in the case of warrants for preferred stock, the designation, total number and terms of the series of preferred stock that can be purchased upon exercise;
- the designation and terms of any series of preferred stock with which the warrants are being offered and the number of warrants being offered with each share of common stock or preferred stock;
- the designation, aggregate principal amount, currencies, denominations and terms of the series of debt securities that can be purchased if a holder exercises a warrant;
- the designation and terms of any series of debt securities with which the warrants are being offered and the number of warrants offered with each such debt security;
- the date on and after which the holder of the warrants can transfer them separately from the related common stock;
- the number of shares of common stock or preferred stock that can be purchased if a holder exercises the warrant and the price at which such common stock or preferred stock may be purchased upon exercise, including, if applicable, any provisions for changes to or adjustments in the exercise price and in the securities or other property receivable upon exercise;
- the terms of any rights to redeem or call, or accelerate the expiration of, the warrants;
- the date on which the right to exercise the warrants begins and the date on which that right expires;
- federal income tax consequences of holding or exercising the warrants; and

- any other specific terms, preferences, rights or limitations of, or restrictions on, the warrants.

Exercise of Warrants

Each holder of a warrant is entitled to purchase the number of shares of common stock or preferred stock, or the principal amount of debt securities, as the case may be, at the exercise price described in the applicable prospectus supplement or free writing prospectus. After the close of business on the day when the right to exercise terminates (or a later date if we extend the time for exercise), unexercised warrants will become void.

A holder of warrants may exercise them by following the general procedure outlined below:

- delivering to the warrant agent the payment required by the applicable prospectus supplement or free writing prospectus to purchase the underlying security;
- properly completing and signing the reverse side of the warrant certificate representing the warrants; and
- delivering the warrant certificate representing the warrants to the warrant agent within five business days of the warrant agent receiving payment of the exercise price.

If you comply with the procedures described above, your warrants will be considered to have been exercised when the warrant agent receives payment of the exercise price, subject to the transfer books for the securities issuable upon exercise of the warrant not being closed on such date. After you have completed those procedures and subject to the foregoing, we will, as soon as practicable, issue and deliver to you the shares of common stock, preferred stock or debt securities that you purchased upon exercise. If you exercise fewer than all of the warrants represented by a warrant certificate, a new warrant certificate will be issued to you for the unexercised amount of warrants. Holders of warrants will be required to pay any tax or governmental charge that may be imposed in connection with transferring the underlying securities in connection with the exercise of the warrants.

Amendments and Supplements to the Warrant Agreements

We may amend or supplement a warrant agreement without the consent of the holders of the applicable warrants to cure ambiguities in the warrant agreement, to cure or correct a defective provision in the warrant agreement, or to provide for other matters under the warrant agreement that we and the warrant agent deem necessary or desirable, so long as, in each case, such amendments or supplements do not materially adversely affect the interests of the holders of the warrants.

Warrant Adjustments

Unless the applicable prospectus supplement or free writing prospectus states otherwise, the exercise price of, and the number of securities covered by, a common stock or a preferred stock warrant will be adjusted proportionately if we subdivide or combine our common stock or preferred stock, as applicable. In addition, unless the prospectus supplement or free writing prospectus states otherwise, if we, without receiving payment:

- issue capital stock or other securities convertible into or exchangeable for common stock or preferred stock, or any rights to subscribe for, purchase or otherwise acquire any of the foregoing, as a dividend or distribution to holders of our common stock or preferred stock;
- pay any cash to holders of our common stock or preferred stock other than a cash dividend paid out of our current or retained earnings or other than in accordance with the terms of the preferred stock;
- issue any evidence of our indebtedness or rights to subscribe for or purchase our indebtedness to holders of our common stock or preferred stock; or
- issue common stock or preferred stock or additional stock or other securities or property to holders of our common stock or preferred stock by way of spinoff, split-up, reclassification, combination of shares or similar corporate rearrangement,

then the holders of common stock or preferred stock warrants will be entitled to receive upon exercise of the warrants, in addition to the securities otherwise receivable upon exercise of the warrants and without paying any additional consideration, the amount of stock and other securities and property such holders would have been entitled to receive had they held the common stock or preferred stock, as applicable, issuable under the warrants on the dates on which holders of those securities received or became entitled to receive such additional stock and other securities and property.

Except as stated above or as otherwise set forth in the applicable prospectus supplement or free writing prospectus, the exercise price and number of securities covered by a common stock or preferred stock warrant, and the amounts of other securities or property to be received, if any, upon exercise of such warrant, will not be adjusted or provided for if we issue those securities or any securities convertible into or exchangeable for those securities, or securities carrying the right to purchase those securities or securities convertible into or exchangeable for those securities.

Holders of common stock and preferred stock warrants may have additional rights under the following circumstances:

- certain reclassifications, capital reorganizations or changes of the common stock or preferred stock, as applicable;
- certain share exchanges, mergers, or similar transactions involving us and which result in changes of the common stock or preferred stock, as applicable; or
- certain sales or dispositions to another entity of all or substantially all of our property and assets.

If one of the above transactions occurs and holders of our common stock or preferred stock are entitled to receive stock, securities or other property with respect to or in exchange for their securities, the holders of the common stock warrants and preferred stock warrants then outstanding, as applicable, will be entitled to receive, upon exercise of their warrants, the kind and amount of shares of stock and other securities or property that they would have received upon the applicable transaction if they had exercised their warrants immediately before the transaction.

DESCRIPTION OF UNITS

This section outlines some of the provisions of the units and the unit agreements. This information may not be complete in all respects and is qualified entirely by reference to the unit agreement with respect to the units of any particular series. The specific terms of any series of units will be described in the applicable prospectus supplement or free writing prospectus. If so described in a particular prospectus supplement or free writing prospectus, the specific terms of any series of units may differ from the general description of terms presented below.

As specified in the applicable prospectus supplement, we may issue units consisting of one or more shares of common stock, shares of our preferred stock, debt securities, warrants or any combination of such securities.

The applicable prospectus supplement will specify the following terms of any units in respect of which this prospectus is being delivered:

- the terms of the units and of any of the shares of common stock, shares of preferred stock, debt securities, or warrants comprising the units, including whether and under what circumstances the securities comprising the units may be traded separately;
- a description of the terms of any unit agreement governing the units;
- if appropriate, a discussion of material U.S. federal income tax considerations; and
- a description of the provisions for the payment, settlement, transfer or exchange of the units.

**DESCRIPTION OF CERTAIN PROVISIONS OF DELAWARE LAW AND
OUR CERTIFICATE OF INCORPORATION AND BYLAWS**

Certain provisions of Delaware law, our Charter and Bylaws discussed below may have the effect of making more difficult or discouraging a tender offer, proxy contest or other takeover attempt. These provisions are expected to encourage persons seeking to acquire control of our company to first negotiate with our Board of Directors. We believe that the benefits of increasing our ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure our company outweigh the disadvantages of discouraging these proposals because negotiation of these proposals could result in an improvement of their terms.

Delaware Anti-Takeover Law.

We are subject to Section 203 of the Delaware General Corporation Law. Section 203 generally prohibits a public Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder, unless:

- prior to the date of the transaction, the Board of Directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding specified shares; or
- at or subsequent to the date of the transaction, the business combination is approved by the Board of Directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

Section 203 defines a “business combination” to include:

- any merger or consolidation involving the corporation and the interested stockholder;
- any sale, lease, exchange, mortgage, pledge, transfer or other disposition of 10% or more of the assets of the corporation to or with the interested stockholder;
- subject to exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;
- subject to exceptions, any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or
- the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an “interested stockholder” as any person that is:

- the owner of 15% or more of the outstanding voting stock of the corporation;
- an affiliate or associate of the corporation who was the owner of 15% or more of the outstanding voting stock of the corporation at any time within three years immediately prior to the relevant date; or
- the affiliates and associates of the above.

Under specific circumstances, Section 203 makes it more difficult for an “interested stockholder” to effect various business combinations with a corporation for a three-year period, although the stockholders may, by adopting an amendment to the corporation’s certificate of incorporation or bylaws, elect not to be governed by this section, effective 12 months after adoption.

Our Charter and Bylaws do not exclude us from the restrictions of Section 203. We anticipate that the provisions of Section 203 might encourage companies interested in acquiring us to negotiate in advance with our Board of Directors since the stockholder approval requirement would be avoided if a majority of the directors then in office approve either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder.

Charter and Bylaws.

Provisions of our Charter and Bylaws may delay or discourage transactions involving an actual or potential change of control or change in our management, including transactions in which stockholders might otherwise receive a premium for their shares, or transactions that our stockholders might otherwise deem to be in their best interests. Therefore, these provisions could adversely affect the price of our common stock.

PLAN OF DISTRIBUTION

We may sell the securities described in this prospectus to or through underwriters or dealers, through agents, or directly to one or more purchasers. A prospectus supplement or supplements (and any related free writing prospectus that we may authorize to be provided to you) will describe the terms of the offering of the securities, including, to the extent applicable:

- the name or names of any underwriters or agents, if applicable;
- the purchase price of the securities and the proceeds we will receive from the sale;
- any over-allotment options under which underwriters may purchase additional securities from us;
- any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation;
- any public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or market on which the securities may be listed.

We may also sell equity securities covered by this registration statement in an "at the market offering" as defined in Rule 415 under the Securities Act. Such offering may be made into an existing trading market for such securities in transactions at other than a fixed price, either:

- on or through the facilities of the Nasdaq Capital Market or any other securities exchange or quotation or trading service on which such securities may be listed, quoted or traded at the time of sale; and/or
- to or through a market maker otherwise than on the Nasdaq Capital Market or such other securities exchanges or quotation or trading services.

Such at-the-market offerings, if any, may be conducted by underwriters acting as principal or agent.

Only underwriters named in a prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in the sale, they will acquire the securities for their own account and may resell the securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to the conditions set forth in the applicable underwriting agreement. We may offer the securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions, the underwriters will be obligated to purchase all of the securities offered by the prospectus supplement. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may change from time to time. We may use underwriters with whom we have a material relationship. We will describe in the prospectus supplement that names the underwriter, the nature of any such relationship.

We may sell securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities, and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by certain types of institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

We may provide agents and underwriters with indemnification against civil liabilities related to this offering, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934, as amended (the “*Exchange Act*”). Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

Any underwriters who are qualified market makers on the Nasdaq Capital Market may engage in passive market making transactions in accordance with Rule 103 of Regulation M during the business day prior to the pricing of the offering, before the commencement of offers or sales of the securities. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security; if all independent bids are lowered below the passive market maker’s bid, however, the passive market maker’s bid must then be lowered when certain purchase limits are exceeded.
