Company Overview

Super League Gaming, Inc. (“*Super League*,” the “*Company*,” “*we*” or “*our*”) is a global leader in the mission to bring live and digital esports entertainment and experiences directly to everyday competitive gamers around the world. Utilizing our proprietary technology platform, Super League operates physical and digital experiences in partnership with publishers of top-tier game titles and owners/operators of a distributed footprint of venues, a network of digital social and viewing channels, and an association/organization of city-based amateur gaming clubs and teams. In addition to providing premium experiences by operating city-vs-city amateur esports leagues and producing thousands of social gaming experiences across North America and our ever-expanding international footprint, the Super League Network features multiple forms of content celebrating the love of play via social media, live streaming and video-on-demand, along with continuous gameplay and leaderboards. Inside our network is Framerate, a large independent social video esports network powered by user-generated highlight reels, and our exclusive proprietary platform Minechut, providing a social and gameplay forum for the avid Minecraft community. Through our partnerships with high-profile venue owners such as Wanda Theatres in China, and Topgolf and Cinemark Theatres in North America, along with ggCircuit, an esports services company that provides gaming center management software solutions for online play at home, along with access to a global network of gaming centers, Super League is committed to supporting the development of local, grassroots player communities, while providing a global, scalable infrastructure for esports competition and engagement. We address not only a wide range of gamers across game titles, ages and skill levels, but also a wide range of content-capture beyond just gameplay. This positions Super League as more than a tournament operator; we are a lifestyle and media company focused on capturing, generating, aggregating and distributing content across the genre of all things esports.

Executive Summary

We believe Super League is on the leading edge of the rapidly growing competitive video gaming industry, which has become an established and vital part of the entertainment landscape. According to Reuters Plus, 2018, gaming is now the world’s favorite form of entertainment, as the gaming industry generated more revenue in 2017 than television, movies and music. At the professional level, thousands of professional players on hundreds of teams competing in dozens of high stakes competitions that draw significant audiences, both in person and online. In addition, the value of brand sponsorships, media rights and prize money continue to rise, as are professional team valuations and the purchase price for securing franchises in professional leagues.

With NewZoo reporting 2.6 billion gamers globally, we believe there is a larger opportunity for the world of mainstream competitive players who want their own esports experience. These amateur gamers are players who enjoy the competition, the social interaction and community, and the entertainment value associated with playing and watching others play. According to Nielsen Esports Playbook, 2017, competitive amateur gamers take part in over eight hours of gameplay and watch up to nine hours of esports-related content each week. We believe this is an under-served market that seeks their own opportunities for team-based play on real playing fields.

Super League is a critically important component in providing the infrastructure for mainstream esports that is synergistic and accretive to the greater esports ecosystem. Over the past five years, we believe we have become the preeminent brand for amateur esports by providing a proprietary software platform that allows our gamers to compete, socialize and spectate premium amateur esports gameplay and entertainment, both physically and digitally. We celebrate everyday competitive gamers and provide a differentiated way for players and spectators to unite around their city clubs and hometown venues for a better, more inclusive social experience not previously available. Not only do we offer premium amateur esports leagues and community, but we are able to leverage our derivative gameplay content to become a comprehensive amateur esports content network. As we expand our city clubs, partner venue network, breadth of game titles and reach into the home, we bring new players into our customer funnel to drive audience growth, and ultimately, consumer and content monetization.

In fiscal year 2019, management focused on the acceleration of development of the building blocks in place for our two primary revenue sources: (1) sponsorships and advertising revenues, the monetization of our content, and (2) direct to consumer revenues, or gamer monetization. Further, as detailed below, we further de-risked the business, achieving game title fluidity, venue diversity, and an enhanced and more scalable technology platform. We also established a premium advertising model for future monetization and expanded our sales team to facilitate delivery, launched our first effort at meaningful consumer monetization, and expanded globally, both digitally and physically.

We offer a variety of ways gamers can engage digitally across our Super League content network and our network of hometown venues serving as the playing fields for recreational esports. In the first quarter of 2020, we expanded our city-based gaming club and league system from 16 to 24 cities across North America, including Canada and Mexico, and we expect further expansion beyond North America in the future.

The fundamental drivers of our business model and monetization strategy are creating deep community engagement through our highly contextualized, local experiences that, when coupled with the critical mass of our large digital audiences, provides the depth and volume for premium content and offer monetization differentiated from a more traditional, commoditized advertising model. The combination of our physical venue network and digital programming channels, with Super League's technology platform at the hub, creates the opportunity for not just a share of the player's wallet, but also the advertiser's wallet. We do this by offering brand sponsors and advertisers a premium marketing channel to reach elusive Generation Z and Millennial gamers and offering players ways to access exclusive tournaments, rewards and programming through our Super League consumer subscription offer and other consumer offerings.

Sponsorships and advertising revenues, the monetization of our content. Traditionally, we have created our own gameplay experiences to generate audience and content and attracted brand and sponsorship dollars to those offers. This continues to be a core source of revenue.

Our potential partners also include game publishers, retailers and brands across various categories who engage us to develop their own customized branded gameplay experiences, powered by our flexible gaming and content technology platform for their own customers.

Additionally, we can monetize our content commercially through advertising revenues on our own digital channels and by selling our content to third-parties.

Direct to Consumer – Gamer monetization. The second way we monetize content is through direct-to-consumer pay walls for access to premium digital and physical experiences and viewing content. We have historically offered a freemium model where consumers can join Super League for free-to-play, casual competitive experiences and charged for access to premium gameplay experiences. We intend to expand our breadth of consumer digital offers in 2020.

To date, our revenues have been weighted towards experience monetization, however we expect to see content monetization begin to emerge as a revenue opportunity.

Key Performance Indicators. We focus on five key performance indicators ("KPIs"), as outlined below, to assess our progress and drive revenue growth. The number of game titles and number of retail partner venues drive audience, introducing more players and spectators to Super League's gaming and content platform. Growth in physical and digital experiences across a wider portfolio can increase the number of registered users, including subscribers, and number of gameplay hours which will have a significant impact on our content library. This focus on audience and content generation ultimately impacts our viewership, which has an amplification effect on potential revenue streams and customer acquisition.

We significantly outperformed the KPI goals we established at the beginning of 2019, setting us up for fiscal 2020 with a focus on accelerated revenue growth. During 2019, we achieved the following KPI related results:

- *Game titles:* We ended fiscal 2018 with four game titles in our portfolio and as of the end of fiscal 2019, had over 20 game titles, including the addition of Capcom's Street Fighter® V: Arcade Edition during the second quarter of 2019 and Tencent America's Player Unknown's Battlegrounds Mobile ("PUBG Mobile"), during the third quarter of 2019. The increase in game titles reflects the flexibility of our technology platform and our platform's ability to rapidly ingest game titles across a wide spectrum of game genres. Further, our digital content network, which features user-generated content submitted to us from any gamer, anywhere, has a limitless library of featured titles. The diversity of our portfolio differentiates us as a truly game-agnostic platform speaking to a wide spectrum of players and viewers.
- *Retail Partner Venues:* We are just seeding the build out and monetization of our retail footprint, driven by our national-level announcements with Topgolf and ggCircuit, as well as our agreement with Wanda for future events in Wanda cinemas in China. The foregoing allows us to expand internationally once retail establishments open up following the COVID-19 pandemic and will provide us with access to hundreds of physical venue locations. In the meantime, we are actively engaging with these gamers online from home. We ended fiscal 2018 with 46 active venues and grew to over 500 total active venues as of December 31, 2019. Our domestic and global footprint establishes us as a leader in aggregating local esports fields for everyday competitive gamers.
- *Registered Users:* We ended fiscal 2018 with approximately 300,000 registered users. During the year ended December 31, 2019, we increased our registered users by approximately 227%, to 980,000 registered users. This increase in registered users represents more gamers from whom we can gather user generated content and convert into subscribers and/or upsell into other paid offers.
- *Gameplay Hours:* As of December 31, 2019, including our live gaming experiences and our expanding digital gameplay channels, we generated approximately 15.0 million hours of gameplay experiences, as compared to approximately 1.8 million full year 2018 gameplay hours. We are just beginning to explore the ways we can repackage and distribute this significant derivative content library for further monetization.
- *Viewership:* Proving that we can attract viewers to our platform and leverage the audiences our brand partners provide, we generated 120.0 million views during fiscal year 2019, compared to our full-year 2018 views of 925,000, leveraging our own programming and experiences and the significant expansion of our audience reach in connection with the acquisition of Framerate. The increase in views resulted in the exponential growth of our monetizable advertising inventory. Additionally, our increase in views was achieved largely via user generated content submitted to us by our community, significantly limiting the production cost and overall investment required to achieve the growth in viewership in 2019.

Recent Developments

Updated KPIs

In April 2020, we provided an update on certain of our KPIs during the quarter ended March 31, 2020, during which we experienced an increase in new users, gamer engagement, and gameplay hours across all platforms due, in part, to social distancing and mandatory shelter in place orders implemented as a result of the recent outbreak of novel coronavirus (COVID-19). These increases include:

- new registered users grew by approximately 20% in March 2020, versus the typical 6% - 7% in the prior months;
- we generated approximately nine million hours of gameplay, including five million during the month of March, during the quarter ended March 31, 2020, compared to 15 million total gameplay hours across our platform in all of 2019; and
- Our Instagram and Tik Tok channels saw a record level of viewership in March with an aggregate of approximately over 30 million views.

Although we experiences increases the aforementioned KPIs during the quarter ended March 31, 2020, there are no assurances that we will be able to sustain these rates of growth during the year ended December 31, 2020. Please see the section titled "Risk Factors" in this prospectus supplement and the documents incorporated by reference herein for risks and uncertainties related to our KPIs and other aspects of our business and operations.

Paycheck Protection Program Loan

On May 4, 2020, we entered into a potentially forgivable loan from the U. S. Small Business Administration (“SBA”) resulting in net proceeds of approximately \$1,200,047 pursuant to the Paycheck Protection Program (“PPP”) enacted by Congress under the CARES Act administered by the SBA (the “PPP Loan”). To facilitate the PPP Loan, the Company entered into a Note Payable Agreement with South Porte Bank as the lender (the “Lender”) (the “PPP Loan Agreement”).

The PPP Loan provides for working capital to the Company and will mature on May 4, 2022. However, under the CARES Act and the PPP Loan Agreement, all payments of both principal and interest will be deferred until at least December 4, 2020. The PPP Loan will accrue interest at a rate of 1.00% per annum, and interest will continue to accrue throughout the period the PPP Loan is outstanding, or until it is forgiven. The CARES Act (including the guidance issued by SBA and U.S. Department of the Treasury related thereto) provides that all or a portion of the PPP Loan may be forgiven upon request from the Company to Lender, subject to requirements in the PPP Loan Agreement and the CARES Act.

First Quarter 2020 Update

On May 14, 2020, we announced certain preliminary estimates of the results of operations that we expect to report for the three months ended March 31, 2020. We expect preliminary unaudited revenue for the three months ended March 31, 2020 to be approximately \$243,000, compared to \$249,000 in the corresponding period in the prior year. The modest decrease reflects the impact of the general deferral in advertising spending by brands and sponsors during the initial stages of the COVID-19 pandemic.

We expect preliminary cost of revenue for the three months ended March 31, 2020 to be approximately \$117,000 compared to \$74,000 in the comparable prior year quarter. The increase was driven by a higher number of live events in the first quarter of 2020 compared to the prior year quarter, and lower cost brand sponsor revenues recognized in the first quarter of 2019.

Total operating expenses in the first quarter of 2020 is expected to be approximately \$5.3 million compared to \$6.3 million in the comparable prior year quarter. The change was primarily due to a net decrease in noncash stock compensation expense related to the vesting of certain IPO-related employee performance-based options and warrants in the first quarter of 2019. Net loss in the first quarter of 2020 is expected to be approximately \$5.1 million or \$(0.60) per share, compared to a net loss of \$16.1 million or \$(2.68) per share in the comparable prior year quarter.

The estimates above represent the most current information available to us and do not present all information necessary for an understanding of our financial condition as of and the results of operations for the three months ended March 31, 2020. We have provided an estimate for the preliminary and unaudited results described above primarily because our financial closing procedures for the three months ended March 31, 2020 are not yet complete. As a result, there is a possibility that our final results will vary materially from these preliminary estimates as a result of the completion of normal quarter-end accounting procedures and adjustments, including the execution of our internal control over financial reporting, the completion of the preparation and review of our financial statements for the three months ended March 31, 2020 and the subsequent occurrence or identification of events prior to the formal issuance of our financial results for the three months ended March 31, 2020. We undertake no obligation to update or supplement the information provided above until we release our results of operations for the three months ended March 31, 2020.

The preliminary estimates for the three months ended March 31, 2020 presented above have been prepared by, and are the responsibility of, management. Our independent registered public accounting firm has not audited, reviewed, compiled, or performed any procedures with respect to such preliminary information. Accordingly, our independent registered public accounting firm does not express an opinion or any other form of assurance with respect thereto.

Implications of Being an Emerging Growth Company

As a company with less than \$1.07 billion in revenue during our most recently completed fiscal year, we qualify as an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012 (the “*JOBS Act*”). An emerging growth company may take advantage of specified reduced reporting and other burdens that are otherwise applicable generally to public companies. These provisions include:

- A requirement to have only two years of audited financial statements and only two years of related Management’s Discussion and Analysis of Financial Condition and Results of Operations;
- An exemption from the auditor attestation requirement on the effectiveness of our internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act of 2002, as amended (the “*Sarbanes-Oxley Act*”);
- An extended transition period for complying with new or revised accounting standards;
- Reduced disclosure about our executive compensation arrangements; and
- No non-binding advisory votes on executive compensation or golden parachute arrangements.

We may take advantage of these provisions from the JOBS Act until the end of the fiscal year in which the fifth anniversary of our initial public offering, or such earlier time when we no longer qualify as an emerging growth company. We would cease to be an emerging growth company on the earlier of (i) the last day of the fiscal year (a) in which we have more than \$1.07 billion in annual revenue or (b) in which we have more than \$700 million in market value of our capital stock held by non-affiliates, or (ii) the date on which we issue more than \$1.0 billion of non-convertible debt over a three-year period. We may choose to take advantage of some but not all of these reduced burdens under the JOBS Act. We have irrevocably taken advantage of other reduced reporting requirements in this prospectus, and we may choose to do so in future filings. To the extent we do, the information that we provide stockholders may be different than you might get from other public companies in which you hold equity interests.

Accordingly, our management will have significant discretion and flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the net proceeds are being used appropriately. It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for us. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

This offering is being conducted on a “best efforts” basis.

The Placement Agent is offering the shares on a “best efforts” basis, and the Placement Agent is under no obligation to purchase any shares for its own account. As a “best efforts” offering, there can be no assurance that the offering contemplated hereby will ultimately be consummated.

You may experience future dilution as a result of future equity offerings and other issuances of our securities. In addition, this offering and future equity offerings and other issuances of our common stock or other securities may adversely affect our common stock price.

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock at prices that may not be the same as the price per share in this offering. We may not be able to sell shares or other securities in any other offering at a price per share that is equal to or greater than the price per share paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders. The price per share at which we sell additional shares of our common stock or securities convertible into common stock in future transactions may be higher or lower than the price per share in this offering. You will incur dilution upon exercise of any outstanding stock options, warrants or upon the issuance of shares of common stock under our stock incentive programs. In addition, the sale of shares in this offering and any future sales of a substantial number of shares of our common stock in the public market, or the perception that such sales may occur, could adversely affect the price of our common stock. We cannot predict the effect, if any, that market sales of those shares of common stock or the availability of those shares of common stock for sale will have on the market price of our common stock.

We have no intention of declaring dividends in the foreseeable future.

The decision to pay cash dividends on our common stock rests with our board of directors and will depend on our earnings, unencumbered cash, capital requirements and financial condition. We do not anticipate declaring any dividends in the foreseeable future, as we intend to use any excess cash for the development, operation and expansion of our business. Investors in our common stock should not expect to receive dividend income on their investment, and investors will be dependent on the appreciation of our common stock, if any, to earn a return on their investment.

CAUTIONARY NOTES REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein contain forward-looking statements that involve substantial risks and uncertainties. All statements, other than statements of historical facts, contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein, including statements regarding our strategy, future operations, future financial position, future revenue, projected costs, prospects, plans, objectives of management and expected market growth, are forward-looking statements. This list of factors that may affect future performance and the accuracy of forward-looking statements is illustrative, but not exhaustive. New risk factors and uncertainties not described here or elsewhere in this prospectus supplement, the accompanying prospectus, including in the sections entitled “Risk Factors,” may emerge from time to time. Moreover, because we operate in a competitive and rapidly changing environment, it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. The forward-looking statements are also subject to the risks and uncertainties specific to our Company, including but not limited to the fact that we have a limited operating history as a public company. In light of these risks, uncertainties and assumptions, the future events and trends discussed in this prospectus may not occur, and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.

You should not rely upon forward-looking statements as predictions of future events. Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that the future results, levels of activity, performance and events and circumstances reflected in the forward-looking statements will be achieved or occur. USE OF PROCEEDS

We estimate that the net proceeds from the sale of the common stock in this offering will be approximately \$0.0 million, after deducting the Placement Agent's fees and estimated offering expenses payable by us.

We currently intend to use the net proceeds from the sale of the securities under this prospectus primarily for working capital and general corporate purposes, including sales and marketing activities, product development and capital expenditures. We may also use a portion of the net proceeds for the acquisition of, or investment in, technologies, solutions or businesses. However, we have no present commitments or agreements to enter into any acquisitions or investments. Pending these uses, we may invest the net proceeds from this offering in short-term, investment-grade interest-bearing securities such as money market accounts, certificates of deposit, commercial paper and guaranteed obligations of the U.S. government. We cannot predict whether the proceeds invested will yield a favorable return. Our management will have broad discretion in the use of the net proceeds from this offering, and investors will be relying on the judgment of our management regarding the application of the net proceeds.

DIVIDEND POLICY

We have never declared or paid any dividends on our capital stock. We currently intend to retain all available funds and any future earnings for the operation and expansion of our business and, therefore, we do not anticipate declaring or paying cash dividends in the foreseeable future. The payment of dividends will be at the discretion of our Board of Directors and will depend on our results of operations, capital requirements, financial condition, prospects, contractual arrangements, any limitations on payment of dividends present in our current and future debt agreements, and other factors that our board of directors may deem relevant.

CAPITALIZATION

The following table sets forth our consolidated cash and cash equivalents, equity and total capitalization as of December 31, 2019:

- on an actual basis;
- on a pro forma basis giving effect to the financial statement impact of the proceeds received from the PPP Loan; and
- on a pro forma as adjusted basis to give effect to the sale of 1,825,000 shares of our common stock in this offering and the application of the estimated net proceeds as described under “*Use of Proceeds*.”

You should read the data set forth in the table below in conjunction with the section of this prospectus supplement under the caption “*Use of Proceeds*” as well as our financial statements and notes and other financial information included or incorporated by reference in this prospectus supplement.

- 2,516,152 shares of common stock issuable upon exercise of common stock purchase warrants, with an average weighted exercise price of \$9.61 per share;
- 308,479 shares of common stock reserved for issuance pursuant to our Amended and Restated 2014 Stock Option and Incentive Plan (the “*2014 Plan*”); and

DILUTION

If you purchase shares in this offering, your ownership interest will be diluted to the extent of the difference between the public offering price per security you will pay in this offering and the as adjusted net tangible book value per share of our common stock after giving effect to this offering. Net tangible book value per share is determined by dividing the number of outstanding shares of our common stock into our net tangible book value, which consists of total tangible assets (total assets less intangible assets) less total liabilities. As of December 31, 2019, we had a historical net tangible book value of \$8.89 million, or approximately \$1.04 per share.

Pro forma net tangible book value per share represents our total tangible assets less our total liabilities, divided by the number of shares of common stock outstanding as of December 31, 2019, after giving effect to the receipt of proceeds from the PPP Loan of approximately \$1.2 million;

After further giving effect to (i) the pro forma adjustment described above, and (ii) the sale by us of 1,825,000 shares of common stock in this offering at an offering price of \$3.50 per share, and after deducting estimated offering expenses payable by us, our pro forma, as adjusted net tangible book value as of December 31, 2019 would have been approximately \$14.9 million or approximately \$1.44 per share. This amount represents an immediate increase in net tangible book value of approximately \$0.40 per share to existing stockholders and an immediate dilution in net tangible book value of approximately \$2.06 per share to purchasers of our common stock in this offering.

The following table illustrates the dilution in net tangible book value per share to new investors:

Public offering price per Share		\$	3.50
Net tangible book value per share as of December 31, 2019	\$	1.04	
Pro forma increase in net tangible book value per share attributable to proceeds received from the PPP Loan.		—	
Pro forma net tangible book value per share as of December 31, 2019	\$	1.04	
Increase in pro forma, as adjusted, net tangible per share attributable to this offering	\$	0.40	
Pro forma, as adjusted net tangible book value per share as of December 31, 2019		\$	1.44
Dilution in pro forma, as adjusted net tangible book value per share to new investors in this offering		\$	2.06

The number of shares of common stock that will be outstanding after this offering is based on 8,573,802 shares of common stock outstanding as of December 31, 2019, and excludes as of such date:

- 2,516,152 shares of common stock issuable upon exercise of common stock purchase warrants, with an average weighted exercise price of \$9.61 per share;
- 308,479 shares of common stock reserved for issuance pursuant to our Amended and Restated 2014 Stock Option and Incentive Plan (the “2014 Plan”); and
- 1,550,851 shares of common stock issuable upon exercise of outstanding stock options, with an average weighted exercise price of \$8.86 per share.

To the extent that any outstanding options or warrants are exercised, new options are issued under our stock incentive plans, or we otherwise issue additional shares of common stock in the future, at a price less than the public offering price, there will be further dilution to new investors.

In addition, we have agreed to reimburse the Placement Agent’s expenses up to \$50,000 upon closing the offering. We estimate that the total expenses of the offering payable by us will be approximately \$379,000.

Regulation M

The Placement Agent may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by them and any profit realized on the resale of the shares sold by them while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As an underwriter, the Placement Agent would be required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 415(a) (4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of shares by the Placement Agent acting as principals. Under these rules and regulations, the Placement Agent:

- may not engage in any stabilization activity in connection with our securities; and
- may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until they have completed their participation in the distribution.

Lock-Up Agreements

We, and our officers and directors, have agreed, subject to specified exceptions, not to directly or indirectly, without the prior written consent of the Placement Agent:

- sell, offer to sell, pledge or otherwise transfer or dispose of (or enter into any transaction or device that is designed to, or could be expected to, result in the transfer or disposition by any person at any time in the future of), any shares of common stock or securities convertible or exercisable for shares of common stock;
- enter into any swap or other derivatives transaction that transfers, in whole or in part, the economic benefits or risk of ownership of shares or related securities, regardless of whether any such transaction is to be settled in securities, in cash or otherwise;
- make any demand for, or exercise any right or cause to be filed a registration under the Securities Act of the offer and sale of any shares or related securities, or cause to be filed a registration statement, prospectus or prospectus supplement (or an amendment or supplement thereto) with respect to any such registration, or
- publicly announce any intention to do any of the foregoing.

This restriction terminates after the 90th day after the date of this prospectus supplement, and the Placement Agent may, in its sole discretion and at any time or from time to time before the termination of the 90-day period release us from all or any portion of these lock-up restrictions.

We also agreed that, except for offerings with the Placement Agent, for 90 days after the closing date of this offering, we shall not effect or enter into an agreement to effect any issuance of shares of common stock or common stock equivalents (as defined in the securities purchase agreement that we entered into with the investors) involving an at-the-market offering or Variable Rate Transactions (as defined in the securities purchase agreement that we entered into with the investors).

Other Activities and Relationships

The Placement Agent and certain of its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The Placement Agent and certain of its affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for us and our affiliates, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Placement Agent and certain of its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the Placement Agent or its respective affiliates have a lending relationship with us, they routinely hedge their credit exposure to us consistent with their customary risk management policies. The Placement Agent and its respective affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the units offered hereby. Any such short positions could adversely affect future trading prices of the units offered hereby. The Placement Agent and certain of its respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The foregoing includes a brief summary of certain provisions of the placement agency agreement and securities purchase agreement that we will enter into and does not purport to be a complete statement of their terms and conditions. A copy of the placement agency agreement and the form of securities purchase agreement will be filed with the SEC and incorporated by reference into the registration statement of which this prospectus supplement forms a part. See “*Where You Can Find More Information*” on page S-19.

This positions Super League as more than a tournament operator; we are a lifestyle and media company focused on capturing, generating, aggregating and distributing content across the genre of all things esports.

Executive Summary

We believe Super League is on the leading edge of the rapidly growing competitive video gaming industry, which has become an established and vital part of the entertainment landscape. According to Reuters Plus, 2018, gaming is now the world’s favorite form of entertainment, as the gaming industry generated more revenue in 2017 than television, movies and music. At the professional level, thousands of professional players on hundreds of teams compete in dozens of high stakes competitions that draw significant audiences, both in person and online. In addition, the value of brand sponsorships, media rights and prize money continue to rise, as are professional team valuations and the purchase price for securing franchises in professional leagues.

With NewZoo reporting 2.6 billion gamers globally, we believe there is a larger opportunity for the world of mainstream competitive players who want their own esports experience. These amateur gamers are players who enjoy the competition, the social interaction and community, and the entertainment value associated with playing and watching others play. According to Nielsen Esports Playbook, 2017, competitive amateur gamers take part in over eight hours of gameplay and watch up to nine hours of esports-related content each week. We believe this is an under-served market that seeks their own opportunities for team-based play on real playing fields.

Super League is a critically important component in providing the infrastructure for mainstream esports that is synergistic and accretive to the greater esports ecosystem. Over the past five years, we believe we have become the preeminent brand for amateur esports by providing a proprietary software platform that allows our gamers to compete, socialize and spectate premium amateur esports gameplay and entertainment, both physically and digitally. We celebrate everyday competitive gamers and provide a differentiated way for players and spectators to unite around their city clubs and hometown venues for a better, more inclusive social experience not previously available. Not only do we offer premium amateur esports leagues and community, but we are able to leverage our derivative gameplay content to become a comprehensive amateur esports content network. As we expand our city clubs, partner venue network, breadth of game titles and reach into the home, we bring new players into our customer funnel to drive audience growth, and ultimately, consumer and content monetization.

In fiscal year 2019, management focused on the acceleration of development of the building blocks in place for our two primary revenue sources: (1) sponsorships and advertising revenues, the monetization of our content, and (2) direct to consumer revenues, or gamer monetization. Further, as detailed below, we further de-risked the business, achieving game title fluidity, venue diversity, and an enhanced and more scalable technology platform. We also established a premium advertising model for future monetization and expanded our sales team to facilitate delivery, launched our first effort at meaningful consumer monetization, and expanded globally, both digitally and physically.

We offer a variety of ways gamers can engage digitally across our Super League content network and our network of hometown venues serving as the playing fields for recreational esports. In the first quarter of 2020, we expanded our city-based gaming club and league system from 16 to 24 cities across North America, including Canada and Mexico, and we expect further expansion beyond North America in the future.

The fundamental drivers of our business model and monetization strategy are creating deep community engagement through our highly contextualized, local experiences that, when coupled with the critical mass of our large digital audiences, provides the depth and volume for premium content and offer monetization differentiated from a more traditional, commoditized advertising model. The combination of our physical venue network and digital programming channels, with Super League's technology platform at the hub, creates the opportunity for not just a share of the player's wallet, but also the advertiser's wallet. We do this by offering brand sponsors and advertisers a premium marketing channel to reach elusive Generation Z and Millennial gamers and offering players ways to access exclusive tournaments, rewards and programming through our Super League consumer subscription offer and other consumer offerings.

Sponsorships and advertising revenues, the monetization of our content. Traditionally, we have created our own gameplay experiences to generate audience and content and attracted brand and sponsorship dollars to those offers. This continues to be a core source of revenue.

Our potential partners also include game publishers, retailers and brands across various categories who engage us to develop their own customized branded gameplay experiences, powered by our flexible gaming and content technology platform for their own customers.

Additionally, we can monetize our content commercially through advertising revenues on our own digital channels and by selling our content to third-parties.

Direct to Consumer - Gamer monetization. The second way we monetize content is through direct-to-consumer pay walls for access to premium digital and physical experiences and viewing content. We have historically offered a freemium model where consumers can join Super League for free-to-play, casual competitive experiences and charged for access to premium gameplay experiences. We intend to expand our breadth of consumer digital offers in 2020.

To date, our revenues have been weighted towards experience monetization, however we expect to see content monetization begin to emerge as a revenue opportunity.

Key Performance Indicators. We focus on five key performance indicators ("KPIs"), as outlined below, to assess our progress and drive revenue growth. The number of game titles and number of retail partner venues drive audience, introducing more players and spectators to Super League's gaming and content platform. Growth in physical and digital experiences across a wider portfolio can increase the number of registered users, including subscribers, and number of gameplay hours which will have a significant impact on our content library. This focus on audience and content generation ultimately impacts our viewership, which has an amplification effect on potential revenue streams and customer acquisition.

We significantly outperformed the KPI goals we established at the beginning of 2019, setting us up for fiscal 2020 with a focus on accelerated revenue growth. During 2019, we achieved the following KPI related results:

- *Game titles:* We ended fiscal 2018 with four game titles in our portfolio and as of the end of fiscal 2019, had over 20 game titles, including the addition of Capcom's Street Fighter® V: Arcade Edition during the second quarter of 2019 and Tencent America's Player Unknown's Battlegrounds Mobile ("PUBG Mobile"), during the third quarter of 2019. The increase in game titles reflects the flexibility of our technology platform and our platform's ability to rapidly ingest game titles across a wide spectrum of game genres. Further, our digital content network, which features user-generated content submitted to us from any gamer, anywhere, has a limitless library of featured titles. The diversity of our portfolio differentiates us as a truly game-agnostic platform speaking to a wide spectrum of players and viewers.
- *Retail Partner Venues:* While we are just seeding the build out and monetization of our retail footprint, our national-level announcements with Top golf and ggCircuit LAN centers, as well as our expanded agreement with ggCircuit, which allows us to expand internationally, provides us with access to hundreds of physical venue locations. We ended fiscal 2018 with 46 active venues and grew to over 500 total active venues as of December 31, 2019. Our domestic and global footprint establishes us as a leader in aggregating local esports fields for everyday competitive gamers.

- *Registered Users:* We ended fiscal 2018 with approximately 300,000 registered users. During the year ended December 31, 2019, we increased our registered users by approximately 227%, to 980,000 registered users. This increase in registered users represents more gamers from whom we can gather user generated content and convert into subscribers and/or upsell into other paid offers.
- *Gameplay Hours:* As of December 31, 2019, including our live gaming experiences and our expanding digital gameplay channels, we generated approximately 15.0 million hours of gameplay experiences, as compared to approximately 1.8 million full year 2018 gameplay hours. We are just beginning to explore the ways we can repack and distribute this significant derivative content library for further monetization.
- *Viewership:* Proving that we can attract viewers to our platform and leverage the audiences our brand partners provide, we generated 120.0 million views during fiscal year 2019, compared to our full-year 2018 views of 925,000, leveraging our own programming and experiences and the significant expansion of our audience reach in connection with the acquisition of Framerate. The increase in views resulted in the exponential growth of our monetizable advertising inventory. Additionally, our increase in views was achieved largely via user generated content submitted to us by our community, significantly limiting the production cost and overall investment required to achieve the growth in viewership in 2019.

Implications of Being an Emerging Growth Company

As a company with less than \$1.07 billion in revenue during our most recently completed fiscal year, we qualify as an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012 (the “*JOBS Act*”). An emerging growth company may take advantage of specified reduced reporting and other burdens that are otherwise applicable generally to public companies. These provisions include:

- A requirement to have only two years of audited financial statements and only two years of related Management’s Discussion and Analysis of Financial Condition and Results of Operations;
- An exemption from the auditor attestation requirement on the effectiveness of our internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act of 2002, as amended (the “*Sarbanes-Oxley Act*”);
- An extended transition period for complying with new or revised accounting standards;
- Reduced disclosure about our executive compensation arrangements; and
- No non-binding advisory votes on executive compensation or golden parachute arrangements.

We may take advantage of these provisions from the JOBS Act until the end of the fiscal year in which the fifth anniversary of our initial public offering, or such earlier time when we no longer qualify as an emerging growth company. We would cease to be an emerging growth company on the earlier of (i) the last day of the fiscal year (a) in which we have more than \$1.07 billion in annual revenue or (b) in which we have more than \$700 million in market value of our capital stock held by non-affiliates, or (ii) the date on which we issue more than \$1.0 billion of non-convertible debt over a three-year period. We may choose to take advantage of some but not all of these reduced burdens under the JOBS Act. We have irrevocably taken advantage of other reduced reporting requirements in this prospectus, and we may choose to do so in future filings. To the extent we do, the information that we provide stockholders may be different than you might get from other public companies in which you hold equity interests.

DESCRIPTION OF OUR CAPITAL STOCK

General

Our Amended and Restated certificate of incorporation (our “*Charter*”) authorizes the issuance of up to 100,000,000 shares of common stock, par value \$0.001 per share, and 10,000,000 shares of preferred stock, par value \$0.001 per share.

Summary of Securities

The following description summarizes certain terms of our capital stock, including the number of shares of common stock that are authorized for issuance under our Charter, and the authorization of shares of preferred stock. Because the foregoing is only a summary, it does not contain all the information that may be important to you. For a complete description of the matters set forth in this section you should refer to our Charter and Amended and Restated Bylaws (our “*Bylaws*”), which are included as exhibits to this prospectus, and to the applicable provisions of Delaware law.

Common Stock

Our Amended and Restated Charter currently authorizes 100.0 million shares of common stock for issuance. As of April 9, 2020, there were 8,573,922 shares of our common stock issued and outstanding, which were held by approximately 160 stockholders of record, approximately 2,516,152 shares of common stock issuable upon exercise of warrants to purchase our common stock, 985,596 shares of common stock issuable upon exercise of options held, 286,671 shares of our common stock issuable upon the vesting of restricted stock units held and 560,234 shares of common stock authorized and available for issuance pursuant to our 2014 Plan. Each holder of common stock is entitled to one vote for each share of common stock held on all matters submitted to a vote of the stockholders, including the election of directors. Neither our Charter or Bylaws do not and will not provide for cumulative voting rights.

Holders of our common stock have no preemptive, conversion or subscription rights, and there are no redemption or sinking fund provisions applicable to the common stock. The rights, preferences and privileges of the holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of our preferred stock that we may designate and issue in the future.

Preferred Stock

Under our Amended and Restated Charter, our Board of Directors has the authority, without further action by our stockholders, to issue up to 10.0 million shares of preferred stock in one or more series and to fix the voting powers, designations, preferences and the relative participating, optional or other special rights and qualifications, limitations and restrictions of each series, including, without limitation, dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, liquidation preferences and the number of shares constituting any series.

As of April 9, 2020, no shares of our authorized preferred stock are outstanding. Because our Board of Directors has the power to establish the preferences and rights of the shares of any additional series of preferred stock, it may afford holders of any preferred stock preferences, powers and rights, including voting and dividend rights, senior to the rights of holders of our common stock, which could adversely affect the holders of the common stock and could delay, discourage or prevent a takeover of us even if a change of control of our company would be beneficial to the interests of our stockholders.

Anti-Takeover Matters

Charter and Bylaw Provisions

The provisions of Delaware law, our Charter, and our Bylaws include a number of provisions that may have the effect of delaying, deferring, or discouraging another person from acquiring control of our company and discouraging takeover bids. These provisions may also have the effect of encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our Board rather than pursue non-negotiated takeover attempts. These provisions include the items described below.

Board Composition and Filling Vacancies

Our Bylaws provide that any vacancy on our Board may only be filled by the affirmative vote of a majority of our directors then in office, even if less than a quorum. Further, any directorship vacancy resulting from an increase in the size of our Board of Directors, may be filled by election of the Board of Directors, but only for a term continuing until the next election of directors by our stockholders.

No Cumulative Voting

The Delaware General Corporation Law (the “DGCL”) provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless certificate of incorporation of the Company in which they own stock provides otherwise. Neither our Charter nor our Bylaws provide that our stockholders shall be entitled to cumulative voting.

Delaware Anti-Takeover Statute

We are subject to the provisions of Section 203 of the DGCL. In general, Section 203 prohibits persons deemed to be “interested stockholders” from engaging in a “business combination” with a publicly held Delaware corporation for three years following the date these persons become interested stockholders unless the business combination is, or the transaction in which the person became an interested stockholder was, approved in a prescribed manner or another prescribed exception applies. Generally, an “interested stockholder” is a person who, together with affiliates and associates, owns, or within three years prior to the determination of interested stockholder status did own, 15% or more of a corporation’s voting stock. Generally, a “business combination” includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the Board. A Delaware corporation may “opt out” of these provisions with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from an amendment approved by at least a majority of the outstanding voting shares. We have not opted out of these provisions. As a result, mergers or other takeover or change in control attempts of us may be discouraged or prevented.

Choice of Forum

Our Bylaws provide that Delaware will be the exclusive forum for any derivative action or proceeding brought on our behalf; any action asserting a breach of fiduciary duty; any action asserting a claim against us arising pursuant to the DGCL, our Charter or our Bylaws; or any action asserting a claim against us that is governed by the internal affairs doctrine. The enforceability of similar choice of forum provisions in other companies’ certificates of incorporation has been challenged in legal proceedings, and it is possible that a court could find these types of provisions to be inapplicable or unenforceable. □

Because the applicability of the exclusive forum provision is limited to the extent permitted by law, we believe that the exclusive forum provision would not apply to suits brought to enforce any duty or liability created by the Securities Exchange Act of 1934, as amended (the “Exchange Act”), the Securities Act of 1933, as amended (the “Securities Act”), any other claim for which the federal courts have exclusive jurisdiction or concurrent jurisdiction over all suits brought to enforce any duty or liability created by the Securities Act. We note that there is uncertainty as to whether a court would enforce the provision and that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

Our common stock is listed on the Nasdaq Capital Market under the symbol “SLGG.”

DESCRIPTION OF WARRANTS

The following description, together with the additional information we include in any applicable prospectus supplements or free writing prospectus, summarizes the material terms and provisions of the warrants that we may offer under this prospectus. Warrants may be offered independently or together with common stock or preferred stock offered by any prospectus supplement or free writing prospectus, and may be attached to or separate from those securities. While the terms we have summarized below will generally apply to any future warrants we may offer under this prospectus, we will describe the particular terms of any warrants that we may offer in more detail in the applicable prospectus supplement or free writing prospectus. The terms of any warrants we offer under a prospectus supplement or free writing prospectus may differ from the terms we describe below.

In the event that we issue warrants, we will issue the warrants under a warrant agreement, which we will enter into with a warrant agent to be selected by us. Forms of these warrant agreements and forms of the warrant certificates representing the warrants, and the complete warrant agreements and forms of warrant certificates containing the terms of the warrants being offered, will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC. We use the term “warrant agreement” to refer to any of these warrant agreements. We use the term “warrant agent” to refer to the warrant agent under any of these warrant agreements. The warrant agent will act solely as an agent of ours in connection with the warrants and will not act as an agent for the holders or beneficial owners of the warrants.

The following summaries of material provisions of the warrants and the warrant agreements are subject to, and qualified in their entirety by reference to, all the provisions of the warrant agreement applicable to a particular series of warrants. We urge you to read the applicable prospectus supplements or free writing prospectus related to the warrants that we sell under this prospectus, as well as the complete warrant agreements that contain the terms of the warrants.

General

We will describe in the applicable prospectus supplement or free writing prospectus the terms relating to a series of warrants. If warrants for the purchase of common stock or preferred stock are offered, the prospectus supplement or free writing prospectus will describe the following terms, to the extent applicable:

- the offering price and the aggregate number of warrants offered;
- the total number of shares that can be purchased if a holder of the warrants exercises them and, in the case of warrants for preferred stock, the designation, total number and terms of the series of preferred stock that can be purchased upon exercise;
- the designation and terms of any series of preferred stock with which the warrants are being offered and the number of warrants being offered with each share of common stock or preferred stock;
- the date on and after which the holder of the warrants can transfer them separately from the related common stock;
- the number of shares of common stock or preferred stock that can be purchased if a holder exercises the warrant and the price at which such common stock or preferred stock may be purchased upon exercise, including, if applicable, any provisions for changes to or adjustments in the exercise price and in the securities or other property receivable upon exercise;
- the terms of any rights to redeem or call, or accelerate the expiration of, the warrants;
- the date on which the right to exercise the warrants begins and the date on which that right expires;
- federal income tax consequences of holding or exercising the warrants;
and
- any other specific terms, preferences, rights or limitations of, or restrictions on, the warrants.

Exercise of Warrants

Each holder of a warrant is entitled to purchase the number of shares of common stock or preferred stock, as the case may be, at the exercise price described in the applicable prospectus supplement or free writing prospectus. After the close of business on the day when the right to exercise terminates (or a later date if we extend the time for exercise), unexercised warrants will become void.

A holder of warrants may exercise them by following the general procedure outlined below:

- delivering to the warrant agent the payment required by the applicable prospectus supplement or free writing prospectus to purchase the underlying security;
- properly completing and signing the reverse side of the warrant certificate representing the warrants;
and
- delivering the warrant certificate representing the warrants to the warrant agent within five business days of the warrant agent receiving payment of the exercise price.

If you comply with the procedures described above, your warrants will be considered to have been exercised when the warrant agent receives payment of the exercise price, subject to the transfer books for the securities issuable upon exercise of the warrant not being closed on such date. After you have completed those procedures and subject to the foregoing, we will, as soon as practicable, issue and deliver to you the shares of common stock or preferred stock that you purchased upon exercise. If you exercise fewer than all of the warrants represented by a warrant certificate, a new warrant certificate will be issued to you for the unexercised amount of warrants. Holders of warrants will be required to pay any tax or governmental charge that may be imposed in connection with transferring the underlying securities in connection with the exercise of the warrants.

Amendments and Supplements to the Warrant Agreements

We may amend or supplement a warrant agreement without the consent of the holders of the applicable warrants to cure ambiguities in the warrant agreement, to cure or correct a defective provision in the warrant agreement, or to provide for other matters under the warrant agreement that we and the warrant agent deem necessary or desirable, so long as, in each case, such amendments or supplements do not materially adversely affect the interests of the holders of the warrants.

Warrant Adjustments

Unless the applicable prospectus supplement or free writing prospectus states otherwise, the exercise price of, and the number of securities covered by, a common stock or a preferred stock warrant will be adjusted proportionately if we subdivide or combine our common stock or preferred stock, as applicable. In addition, unless the prospectus supplement or free writing prospectus states otherwise, if we, without receiving payment:

- issue capital stock or other securities convertible into or exchangeable for common stock or preferred stock, or any rights to subscribe for, purchase or otherwise acquire any of the foregoing, as a dividend or distribution to holders of our common stock or preferred stock;
- pay any cash to holders of our common stock or preferred stock other than a cash dividend paid out of our current or retained earnings or other than in accordance with the terms of the preferred stock;
- issue any evidence of our indebtedness or rights to subscribe for or purchase our indebtedness to holders of our common stock or preferred stock;
or
- issue common stock or preferred stock or additional stock or other securities or property to holders of our common stock or preferred stock by way of spinoff, split-up, reclassification, combination of shares or similar corporate rearrangement,

then the holders of common stock or preferred stock warrants will be entitled to receive upon exercise of the warrants, in addition to the securities otherwise receivable upon exercise of the warrants and without paying any additional consideration, the amount of stock and other securities and property such holders would have been entitled to receive had they held the common stock or preferred stock, as applicable, issuable under the warrants on the dates on which holders of those securities received or became entitled to receive such additional stock and other securities and property.

Except as stated above or as otherwise set forth in the applicable prospectus supplement or free writing prospectus, the exercise price and number of securities covered by a common stock or preferred stock warrant, and the amounts of other securities or property to be received, if any, upon exercise of such warrant, will not be adjusted or provided for if we issue those securities or any securities convertible into or exchangeable for those securities, or securities carrying the right to purchase those securities or securities convertible into or exchangeable for those securities.

Holders of common stock and preferred stock warrants may have additional rights under the following circumstances:

- certain reclassifications, capital reorganizations or changes of the common stock or preferred stock, as applicable;
- certain share exchanges, mergers, or similar transactions involving us and which result in changes of the common stock or preferred stock, as applicable; or
- certain sales or dispositions to another entity of all or substantially all of our property and assets.

If one of the above transactions occurs and holders of our common stock or preferred stock are entitled to receive stock, securities or other property with respect to or in exchange for their securities, the holders of the common stock warrants and preferred stock warrants then outstanding, as applicable, will be entitled to receive, upon exercise of their warrants, the kind and amount of shares of stock and other securities or property that they would have received upon the applicable transaction if they had exercised their warrants immediately before the transaction.

DESCRIPTION OF UNITS

This section outlines some of the provisions of the units and the unit agreements. This information may not be complete in all respects and is qualified entirely by reference to the unit agreement with respect to the units of any particular series. The specific terms of any series of units will be described in the applicable prospectus supplement or free writing prospectus. If so described in a particular prospectus supplement or free writing prospectus, the specific terms of any series of units may differ from the general description of terms presented below.

As specified in the applicable prospectus supplement, we may issue units consisting of one or more shares of common stock, shares of our preferred stock, warrants or any combination of such securities.

The applicable prospectus supplement will specify the following terms of any units in respect of which this prospectus is being delivered:

- the terms of the units and of any of the shares of common stock, shares of preferred stock, or warrants comprising the units, including whether and under what circumstances the securities comprising the units may be traded separately;
- a description of the terms of any unit agreement governing the units;
- if appropriate, a discussion of material U.S. federal income tax considerations;
and
- a description of the provisions for the payment, settlement, transfer or exchange of the units.

DESCRIPTION OF CERTAIN PROVISIONS OF DELAWARE LAW AND OUR CERTIFICATE OF INCORPORATION AND BYLAWS

Certain provisions of Delaware law, our Charter and Bylaws discussed below may have the effect of making more difficult or discouraging a tender offer, proxy contest or other takeover attempt. These provisions are expected to encourage persons seeking to acquire control of our company to first negotiate with our Board of Directors. We believe that the benefits of increasing our ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure our company outweigh the disadvantages of discouraging these proposals because negotiation of these proposals could result in an improvement of their terms.

Delaware Anti-Takeover Law.

We are subject to Section 203 of the Delaware General Corporation Law. Section 203 generally prohibits a public Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder, unless:

- prior to the date of the transaction, the Board of Directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding specified shares; or
- at or subsequent to the date of the transaction, the business combination is approved by the Board of Directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

Section 203 defines a “business combination” to include:

- any merger or consolidation involving the corporation and the interested stockholder;
- any sale, lease, exchange, mortgage, pledge, transfer or other disposition of 10% or more of the assets of the corporation to or with the interested stockholder;
- subject to exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;
- subject to exceptions, any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or
- the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an “interested stockholder” as any person that is:

- the owner of 15% or more of the outstanding voting stock of the corporation;
- an affiliate or associate of the corporation who was the owner of 15% or more of the outstanding voting stock of the corporation at any time within three years immediately prior to the relevant date; or
- the affiliates and associates of the above.

Under specific circumstances, Section 203 makes it more difficult for an “interested stockholder” to effect various business combinations with a corporation for a three-year period, although the stockholders may, by adopting an amendment to the corporation’s certificate of incorporation or bylaws, elect not to be governed by this section, effective 12 months after adoption.

Our Charter and Bylaws do not exclude us from the restrictions of Section 203. We anticipate that the provisions of Section 203 might encourage companies interested in acquiring us to negotiate in advance with our Board of Directors since the stockholder approval requirement would be avoided if a majority of the directors then in office approve either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder.

Charter and Bylaws.

Provisions of our Charter and Bylaws may delay or discourage transactions involving an actual or potential change of control or change in our management, including transactions in which stockholders might otherwise receive a premium for their shares, or transactions that our stockholders might otherwise deem to be in their best interests. Therefore, these provisions could adversely affect the price of our common stock.

PLAN OF DISTRIBUTION

We may sell the securities described in this prospectus to or through underwriters or dealers, through agents, or directly to one or more purchasers. A prospectus supplement or supplements (and any related free writing prospectus that we may authorize to be provided to you) will describe the terms of the offering of the securities, including, to the extent applicable:

- the name or names of any underwriters or agents, if applicable;
- the purchase price of the securities and the proceeds we will receive from the sale;
- any over-allotment options under which underwriters may purchase additional securities from us;
- any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation;
- any public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or market on which the securities may be listed.

We may also sell equity securities covered by this registration statement in an "at the market offering" as defined in Rule 415 under the Securities Act. Such offering may be made into an existing trading market for such securities in transactions at other than a fixed price, either:

- On or through the facilities of the Nasdaq Capital Market or any other securities exchange or quotation or trading service on which such securities may be listed, quoted or traded at the time of sale; and/or
- to or through a market maker otherwise than on the Nasdaq Capital Market or such other securities exchanges or quotation or trading services.

Such at-the-market offerings, if any, may be conducted by underwriters acting as principal or agent.

Only underwriters named in a prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in the sale, they will acquire the securities for their own account and may resell the securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to the conditions set forth in the applicable underwriting agreement. We may offer the securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions, the underwriters will be obligated to purchase all of the securities offered by the prospectus supplement. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may change from time to time. We may use underwriters with whom we have a material relationship. We will describe in the prospectus supplement that names the underwriter, the nature of any such relationship.

We may sell securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities, and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by certain types of institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

We may provide agents and underwriters with indemnification against civil liabilities related to this offering, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

Any underwriter may engage in over-allotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934, as amended (the “*Exchange Act*”). Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

Any underwriters who are qualified market makers on the Nasdaq Capital Market may engage in passive market making transactions in accordance with Rule 103 of Regulation M during the business day prior to the pricing of the offering, before the commencement of offers or sales of the securities. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security; if all independent bids are lowered below the passive market maker’s bid, however, the passive market maker’s bid must then be lowered when certain purchase limits are exceeded.

Board Composition and Election of Directors

Board Composition

Our Board currently consists of six members. Each of our continuing directors will serve until our next annual meeting of stockholders or until his or her successor is elected and duly qualified. Our Board is authorized to appoint persons to the offices of Chair of the Board of Directors, Vice Chair of the Board of Directors, Chief Executive Officer, President, one or more Vice Presidents, Chief Financial Officer, Treasurer, one or more Assistant Treasurers, Secretary, one or more Assistant Secretaries, and such other officers as may be determined by the Board. The Board may also empower the Chief Executive Officer, or in absence of a Chief Executive Officer, the President, to appoint such other officers and agents as our business may require. Any number of offices can be held by the same person.

Director Independence

Our Board has determined that four of its directors qualify as independent directors, as determined in accordance with the rules of the Nasdaq Stock Market, consisting of Ms. Patrick and Messrs. Gehl, Keller and Jung. Under the applicable listing requirements of the Nasdaq Capital Market, we are permitted to phase in our compliance with the majority independent board requirement of the Nasdaq Stock Market rules within one year of our listing on Nasdaq. The director independence definition under the Nasdaq Stock Market rule includes a series of objective tests, including that the director is not, and has not been for at least three years, one of our employees and that neither the director nor any of his family members has engaged in various types of business dealings with us. In addition, as required by Nasdaq Stock Market rules, our Board has made a subjective determination as to each independent director that no relationships exist, which, in the opinion of our Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, our Board reviewed and discussed information provided by the directors and us with regard to each director's business and personal activities and relationships as they may relate to us and our management.

Ms. Hand, our President and Chief Executive Officer, is a first cousin of Mr. Gehl, a member of our Board. There are no other family relationships among any of our directors or executive officers.

Role of Board in Risk Oversight Process

Our Board has responsibility for the oversight of the Company's risk management processes and, either as a whole or through its committees, regularly discusses with management our major risk exposures, their potential impact on our business, and the steps we take to manage them. The risk oversight process includes receiving regular reports from Board committees and members of senior management to enable our Board to understand our risk identification, risk management and risk mitigation strategies with respect to areas of potential material risk, including operations, finance, legal, regulatory, strategic and reputational risk. Cybersecurity risk is a key consideration in our operational risk management capabilities. We are in the process of instituting a formal information security management program, which will be subject to oversight by, and reporting to, our Board. Given the nature of our operations and business, cybersecurity risk may manifest itself through various business activities and channels and is thus considered an enterprise-wide risk which is subject to control and monitoring at various levels of management throughout the business. Our Board will oversee and review reports on significant matters of corporate security, including cybersecurity. In addition, we maintain specific cyber insurance through our corporate insurance program, the adequacy of which is subject to review and oversight by our Board.

Our audit committee reviews information regarding liquidity and operations and oversees our management of financial risks. Periodically, our audit committee reviews our policies with respect to risk assessment, risk management, loss prevention and regulatory compliance. Oversight by the audit committee includes direct communication with our external auditors, and discussions with management regarding significant risk exposures and the actions management has taken to limit, monitor or control such exposures. Our compensation committee is responsible for assessing whether any of our compensation policies or programs has the potential to encourage excessive risk-taking. Matters of significant strategic risk are considered by our Board as a whole.

Board Committees and Independence

Our Board has established the following three standing committees: audit committee, compensation committee, and nominating and governance committee. Our Board has adopted written charters for each of these committees. Upon completion of this offering, we intend to make each committee's charter available under the Corporate Governance section of our website at www.superleague.com/corporategovernance. The reference to our website address does not constitute incorporation by reference of the information contained at or available through our website, and you should not consider it to be a part of this prospectus.

Our Board has determined that Mr. Gehl qualifies as an “audit committee financial expert” as defined by applicable SEC rules and has the requisite financial sophistication as defined under the applicable Nasdaq Stock Market rules and regulations. Pursuant to its charter, the compensation committee is primarily responsible for, among other things:

- reviewing our compensation programs and arrangements applicable to our executive officers, including all employment-related agreements or arrangements under which compensatory benefits are awarded or paid to, or earned or received by, our executive officers, and advising management and the Board regarding such programs and arrangements;

- reviewing and making recommendations to our Board with respect to compensation of our executive officers and senior management;
- reviewing and making recommendations to our Board with respect to director compensation;
- endeavoring to ensure that our executive compensation programs are reasonable and appropriate, meet their stated purpose (which, among other things, includes rewarding and creating incentives for individuals and Company performance), and effectively serve the interests of the Company and our stockholders; and

Nominating and Governance Committee

Our nominating and governance committee is currently comprised of Michael Keller, who serves as the committee chair, Kristin Patrick and Jeff Gehl, each of whom are independent directors as determined in accordance with the rules of the Nasdaq Stock Market. Pursuant to its charter, the nominating and governance committee is primarily responsible for, among other things:

- assisting the Board in identifying qualified candidates to become directors, and recommending to our Board nominees for election at the next annual meeting of stockholders;
- leading the Board in its annual review of the Board's performance;
- recommending to the Board nominees for each Board committee and each committee chair;
- reviewing and overseeing matters related to the independence of Board and committee members, in light of independence requirement of the Nasdaq Stock Market and the rules and regulations of the SEC;
- overseeing the process of succession planning of our CEO and other executive officers; and
- developing and recommending to the Board corporate governance guidelines, including our Code of Business Conduct, applicable to the Company.

Board Diversity

Upon the closing of this offering, our nominating and governance committee will be responsible for reviewing with the Board, on an annual basis, the appropriate characteristics, skills and experience required for the Board as a whole and its individual members. In evaluating the suitability of individual candidates (both new candidates and current members), the nominating and governance committee, in recommending candidates for election, and the Board, in approving (and, in the case of vacancies, appointing) such candidates, will take into account many factors, including the following:

- personal and professional integrity, ethics and values;
- experience in corporate management, such as serving as an officer or former officer of a publicly-held company;
- experience as a board member or executive officer of another publicly-held company;
- strong finance experience;
- diversity of expertise and experience in substantive matters pertaining to our business relative to other board members;
- diversity of background and perspective, including, but not limited to, with respect to age, gender, race, place of residence and specialized experience;
- experience relevant to our business industry and with relevant social policy concerns; and
- relevant academic expertise or other proficiency in an area of our business operations.

Currently, our Board evaluates, and following the closing of this offering will evaluate, each individual in the context of the Board as a whole, with the objective of assembling a group that can best maximize the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas.

Compensation Committee Interlocks and Insider Participation

None of the members of our compensation committee, at any time, have been one of our officers or employees. None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any other entity that has one or more executive officers on our Board of Directors or compensation committee.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics applicable to our employees, officers and directors. We provide our Code of Business Conduct and Ethics under the Corporate Governance section of our website at www.superleague.com/corporategovernance/. The reference to our website address does not constitute incorporation by reference of the information contained at or available through our website, and you should not consider it to be a part of this prospectus. We intend to disclose any future amendments to certain provisions of our Code of Business Conduct and Ethics, or waivers of these provisions, on our website or in our filings with the SEC under the Exchange Act.

Limitation of Liability and Indemnification

Our Charter and our Bylaws provide the indemnification of our directors and officers to the fullest extent permitted under the DGCL. In addition, the Charter provides that our directors shall not be personally liable to us or our shareholders for monetary damages for breach of fiduciary duty as a director and that if the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors shall be eliminated or limited to the fullest extent permitted by the DGCL, as so amended.

As permitted by the DGCL, we have entered into or plan to enter into separate indemnification agreements with each of our directors and certain of our officers that require us, among other things, to indemnify them against certain liabilities which may arise by reason of their status as directors, officers or certain other employees. We expect to obtain and maintain insurance policies under which our directors and officers are insured, within the limits and subject to the limitations of those policies, against certain expenses in connection with the defense of, and certain liabilities that might be imposed as a result of, actions, suits or proceedings to which they are parties by reason of being or having been directors or officers. The coverage provided by these policies may apply whether or not we would have the power to indemnify such person against such liability under the provisions of the DGCL.

We believe that these provisions and agreements are necessary to attract and retain qualified persons as our officers and directors. At present, there is no pending litigation or proceeding involving our directors or officers for whom indemnification is required or permitted, and we are not aware of any threatened litigation or proceeding that may result in a claim for indemnification.

EXECUTIVE COMPENSATION

We are an emerging growth company for purposes of the SEC’s executive compensation disclosure rules. In accordance with such rules, we are required to provide a Summary Compensation Table and an Outstanding Equity Awards at Fiscal Year End Table, as well as limited narrative disclosures regarding executive compensation for our last two completed fiscal years. Further, our reporting obligations extend only to our “named executive officers,” who are those individuals serving as our principal executive officer and our two other most highly compensated executive officers who were serving as executive officers at December 31, 2019, the end of the last completed fiscal year (the “Named Executive Officers”).

We have identified Ann Hand, David Steigelfest and Matt Edelman as our Named Executive Officers for the year ended December 31, 2019. Our Named Executive Officers for our fiscal year ending December 31, 2020 could change, as we may hire or appoint new executive officers.

For the fiscal years ended December 31, 2019 and 2018, compensation for our Named Executive Officers was as follows:

Name and principal position	Year	Salary (\$)	Bonus (\$)	Stock Awards (\$)	Option Awards (\$) (1)	All Other Compensation (\$)	Total (\$)
Ann Hand	2019	\$ 400,000	\$ 350,000 ⁽²⁾	-	\$ -	-	\$ 750,000

(1) This column represents the grant date fair value calculated in accordance with the FASB’s Accounting Standards Codification Topic 718, Compensation – Stock Compensation (“ASC 718”). The methodology used to calculate the estimated value of the equity awards granted is set forth under Note 2 and Note 8 to the audited Financial Statements as of and for the years ended December 31, 2019 and 2018, included in our Annual Report on Form 10-K for the year ended December 31, 2019, which is incorporated by reference into this prospectus. These amounts do not represent the actual value, if any, that may be realized by the Named Executive Officers.

Elements of Compensation

Our executive compensation program consisted of the following components of compensation during the years ended December 31, 2019 and 2018:

Base Salary

Each of our executive officers receives a base salary for the expertise, skills, knowledge and experience he or she offers to our management team. The base salary of each of our executive officers is re-evaluated annually, and may be adjusted to reflect:

- the nature, responsibilities, and duties of the officer's position;
- the officer's expertise, demonstrated leadership ability, and prior performance;
- the officer's salary history and total compensation, including annual equity incentive awards; and
- the competitiveness of the officer's base salary.

Equity Incentive Awards

We believe that to attract and retain management, key employees and non-management directors, the compensation paid to these persons should include, in addition to base salary, annual equity incentives. Our compensation committee determines the amount and terms of equity-based compensation granted to each individual. In determining whether to grant certain equity awards to our executive officers, the compensation committee assesses the level of the executive officer's achievement of meeting individual goals, as well as the executive officer's contribution towards goals of the Company. Whenever possible, equity incentive awards are granted under our stock option plan. However, due to a prior lack of shares available for issuances under the 2014 Plan, we have granted certain awards in the form of warrants to key executive officers in the past.

Stock Option and Incentive Plan

2014 Stock Option and Incentive Plan

Our Board unanimously approved the 2014 Plan on October 13, 2014. The 2014 Plan was subsequently amended in May 2015, May 2016, July 2017 and October 2018. The maximum number of shares of common stock issuable under the 2014 Plan is currently 1,833,334 shares, subject to adjustments for stock splits, stock dividends or other similar changes in our common stock or our capital structure.

Our 2014 Plan provides for the grant of (a) Incentive Stock Options (within the meaning of Section 422 of the Code) to our full-time employees (“Employees”), subject to the requirements of Section 422(c)(6) where an Employee owns 10% or more of our voting stock outstanding; (b) Non-Qualified Options (together with Incentive Stock Options, “Options”); (c) stock awards; and (d) performance shares to any individual who is (i) an Employee, (ii) a member of our Board, or (iii) an independent contractor who provides services for the Company.

Plan Administration

Pursuant to the 2014 Plan, our Board has delegated the authority to administer the 2014 Plan to the Board’s compensation committee (the “Committee”). Subject to the provisions of our 2014 Plan, the Committee has the power to determine the terms of the awards, including the exercise price, the number of shares subject to each award, the exercisability of the awards, and the form of consideration, if any, payable upon exercise. The Committee also has the authority to amend, modify, extend renew or terminate outstanding Options, or may accept the cancellation of outstanding Options, whether or not granted under the 2014 Plan, in return for the grant of new Options at the same or a different price. Additionally, the Committee may shorten the vesting period, extend the exercise period, remove any or all restrictions or convert an Incentive Option to a Non-Qualified Option, if, at its sole discretion, it determines that such action is in the best interest of the Company; *provided, however*, that any modification made to outstanding Options requires the prior consent of the holder(s) of such Options, unless the Committee determines that the action would not materially and adversely affect such holder(s).

Incentive Stock Options

The exercise price of Incentive Stock Options granted under our 2014 Plan must at least be equal to 100% of the fair market value of our common stock on the date of grant. The term of an Incentive Stock Option may not exceed ten years, except that with respect to any participant who owns more than 10% of the voting power of all classes of our outstanding stock, the term must not exceed five years and the exercise price must equal at least 110% of the fair market value on the grant date.

Non-Qualified Stock Options

The exercise price of Non-Qualified Options granted under our 2014 Plan must at least be equal to 85% of the fair market value of our common stock on the date of grant. The term of a Non-Qualified Stock Option may not exceed ten years.

Stock Awards or Sales

Eligible individuals may be issued shares of common stock directly, upon the attainment of performance milestones or the completion of a specified period of service or as a bonus for past services. The purchase price for the shares shall not be less than 100% of the fair market value of the shares on the date of issuance, and payment may be in the form of cash or past services rendered. Eligible individuals shall have no stockholder rights with respect to any unvested restricted shares or restricted share units issued to them under the stock award or sales program, however, eligible individuals shall have the right to receive any regular cash dividends paid on such shares.

Termination of Relationship

Except as the Committee may otherwise determine with respect to a Non-Qualified Stock Option, if the holder of an Option ceases to have a Relationship (as defined in the 2014 Plan) with the Company for any reason other than death or permanent disability, any Options granted to him shall terminate 90 days from the date on which such Relationship terminates; *provided, however*, that no Option may be exercised or claimed by the holder of an Option following the termination of his Relationship for Cause (as defined in the 2014 Plan). In the event that the Relationship terminates as a result of the death or permanent disability of the Option holder, any Options granted to him shall terminate one year from the date of his death or termination due to permanent disability. In no event may an option be exercised later than the expiration of its term.

Certain Adjustments

In the event of certain changes in our capitalization, to prevent diminution or enlargement of the benefits or potential benefits available under the 2014 Plan, the administrator will adjust the number and class of shares available for future grants under the 2014 Plan, the exercise price of outstanding Options, the number of shares covered by each outstanding award, or the purchase price of each outstanding award. In connection with the one-for-three Reverse Stock Split (defined below) of our common stock that was effected on February 8, 2019, the terms of certain awards granted under our 2014 Plan were equitably adjusted in accordance with the provisions thereof.

Reorganization

In the event we are a party to a merger or other corporate reorganization, all outstanding Options shall be subject to the agreement of merger or reorganization. Such agreement may provide for the assumption of the outstanding Options by the surviving corporation or its parent or for their continuation by the Company (if the Company is a surviving corporation); *provided, however*, that if the assumption or continuation is not provided by such agreement, then the Committee, in its sole discretion, shall have the option of offering the payment of a cash settlement equal to the difference between the amount to be paid for one share under the agreement and the exercise price.

Change of Control

Under the 2014 Plan, a Change of Control is generally defined as: (i) the sale of all or substantially all of the assets of the Company, or (ii) any merger, consolidation or acquisition of the Company with, by or into another corporation, entity or third party, the result of which is a change in the ownership of more than 50% of the voting capital stock of the Company.

In the event of a Change of Control, all restrictions on all awards or sales of shares will accelerate and vesting on all unexercised and unvested Options will occur on the Change of Control date.

Director Compensation

Related Party Transaction Policy

Our Board recognizes the fact that transactions with related persons present a heightened risk of conflicts of interests and/or improper valuation (or the perception thereof). Accordingly, our Board has adopted a written policy addressing the approval of transactions with related persons, in conformity with the requirements for issuers having publicly held common stock listed on the Nasdaq Capital Market. Pursuant to our Related Persons Transactions Policy (the "*Policy*"), any related-person transaction, and any material amendment or modification of a related-person transaction, is required to be reviewed and approved or ratified by the Board's audit committee, which shall be composed solely of independent directors who are disinterested, or in the event that a member of the audit committee is a Related Person, as defined below, then by the disinterested members of the audit committee; *provided, however*, that in the event that management determines that it is impractical or undesirable to delay the consummation of a related person transaction until a meeting of the audit committee, then the Chair of the audit committee may approve such transaction in accordance with this policy; such approval must be reported to the audit committee at its next regularly scheduled meeting. In determining whether to approve or ratify any related person transaction, the audit committee must consider all of the relevant facts and circumstances and shall approve only those transactions that are deemed to be in the best interests of the Company.

Pursuant to our Policy and SEC rules, a “related person transaction” includes any transaction, arrangement or relationship which: (i) the Company is a participant; (ii) the amount involved exceeds \$120,000; and (iii) an executive officer, director or director nominee, or any person who is known to be the beneficial owner of more than 5% of our common stock, or any person who is an immediate family member of an executive officer, director or director nominee or beneficial owner of more than 5% of our common stock, had or will have a direct or indirect material interest (each a “*Related Person*”).

In connection with the review and approval or ratification of a related person transaction:

- Management shall be responsible for determining whether a transaction constitutes a related person transaction subject to the Policy, including whether the Related Person has a material interest in the transaction, based on a review of all of the facts and circumstances; and
